# OBIEE/Business Intelligence Applications Simplified

Vivek Jain, Managing Consultant, IBM (GBS)

Rahul Kundavaram, Senior Principal Consultant, Oracle

Dec 8, 2010

---

---

# Introduction

- Introduction to Business Intelligence / OBIEE
  - Business Intelligence Applications
  - Case Studies
    - Custom OBIEE Development
    - BI Applications
  - Technical Details
  - BI Center of Excellence
  - Wrap-up / Questions & Answers
-

---

# About Speakers!

## **Vivek:**

- OBIEE professional with IBM (Global Business Services) in Oracle Consulting Practice
  - Skills in OBIEE, Oracle Spatial and MapViewer, OLAP/Essbase, Oracle RTD etc
  - Many years of hands-on experience with many Fortune 100 companies in all of these areas
-

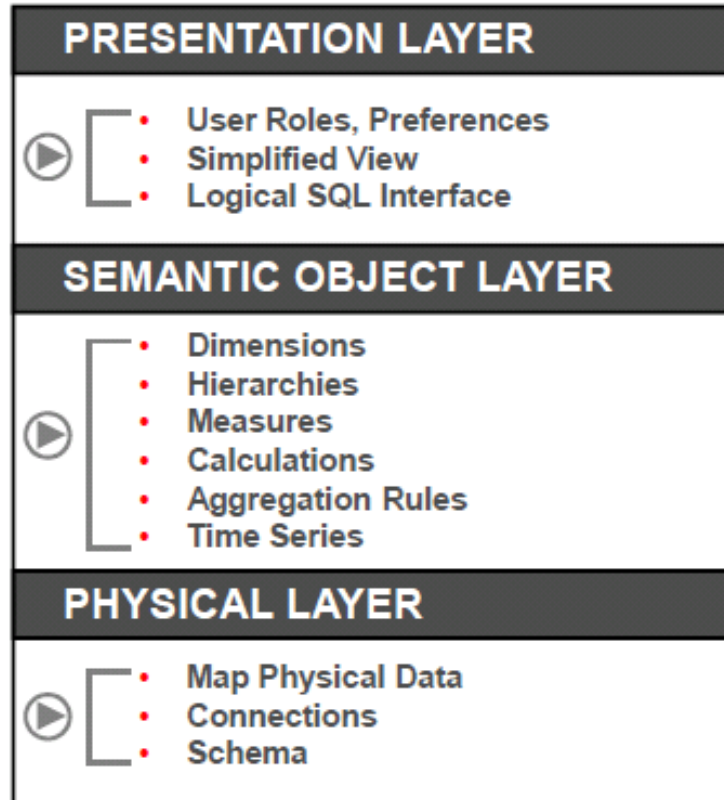

# Why Oracle BI EE (OBI EE)?

- Age old Enterprise BI Industry Challenges
  - No effective way to analyze requirements
    - *“It took us two years to build the enterprise DW, and it is not being fully utilized since being built.”*
  - Reporting silos
    - Silo data marts or cubes; query tool silos
    - Batch-based reporting deployed as dead “sheets of paper”
  - Low user adoption
    - Hard-to-use
    - Poor performance
    - High TCO
    - Not actionable or relevant
    - Too late; not detailed enough

# Why is Oracle BI EE different?

- Solutions versus tools
  - OBI EE Platform
    - Flexibility for functionality extensions
    - Application administration for TCO
  - Model-driven applications methodology minimizes requirements surprises
- Enterprise versus departmental
  - Enterprise Information Model -- versus hundreds of cubes
  - Handles large data volumes by function shipping to the database
  - Minimizes the use of temp tables to exploit the database optimizer
- Pervasive
  - Ad hoc analysis for business users via interactive dashboards
  - Business problem orientation: analytic workflows and guided navigation
  - Open APIs to fit underneath existing operational systems UI -- SOAP Services for UI reuse or odbc for data / business logic re-use only
- Unified server-centric architecture with full thin client UI

# OBIEE – Three Layers

**Role-Based Views of the Information Relevant to the User**

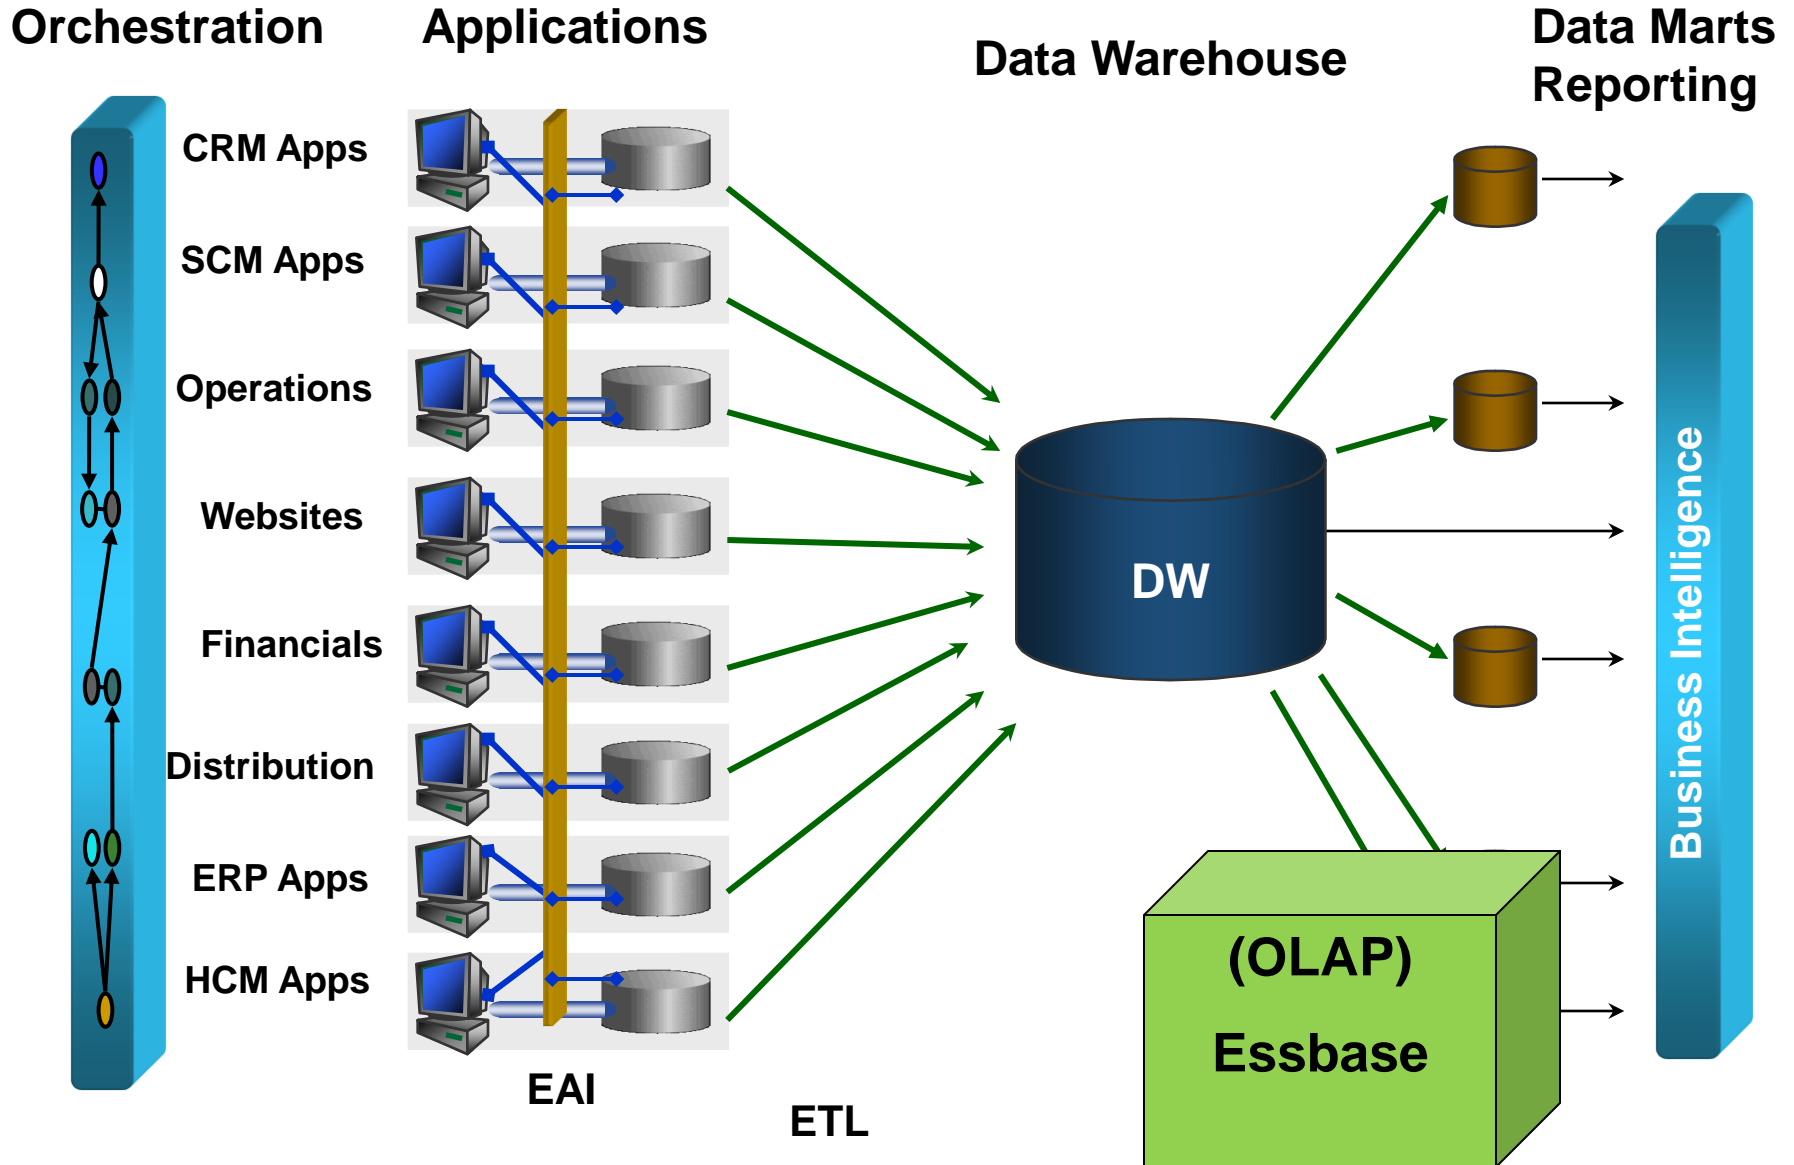

**Consistent Definition of Business Measures, Metrics, Calculations**

**Model Once, Deploy Everywhere**

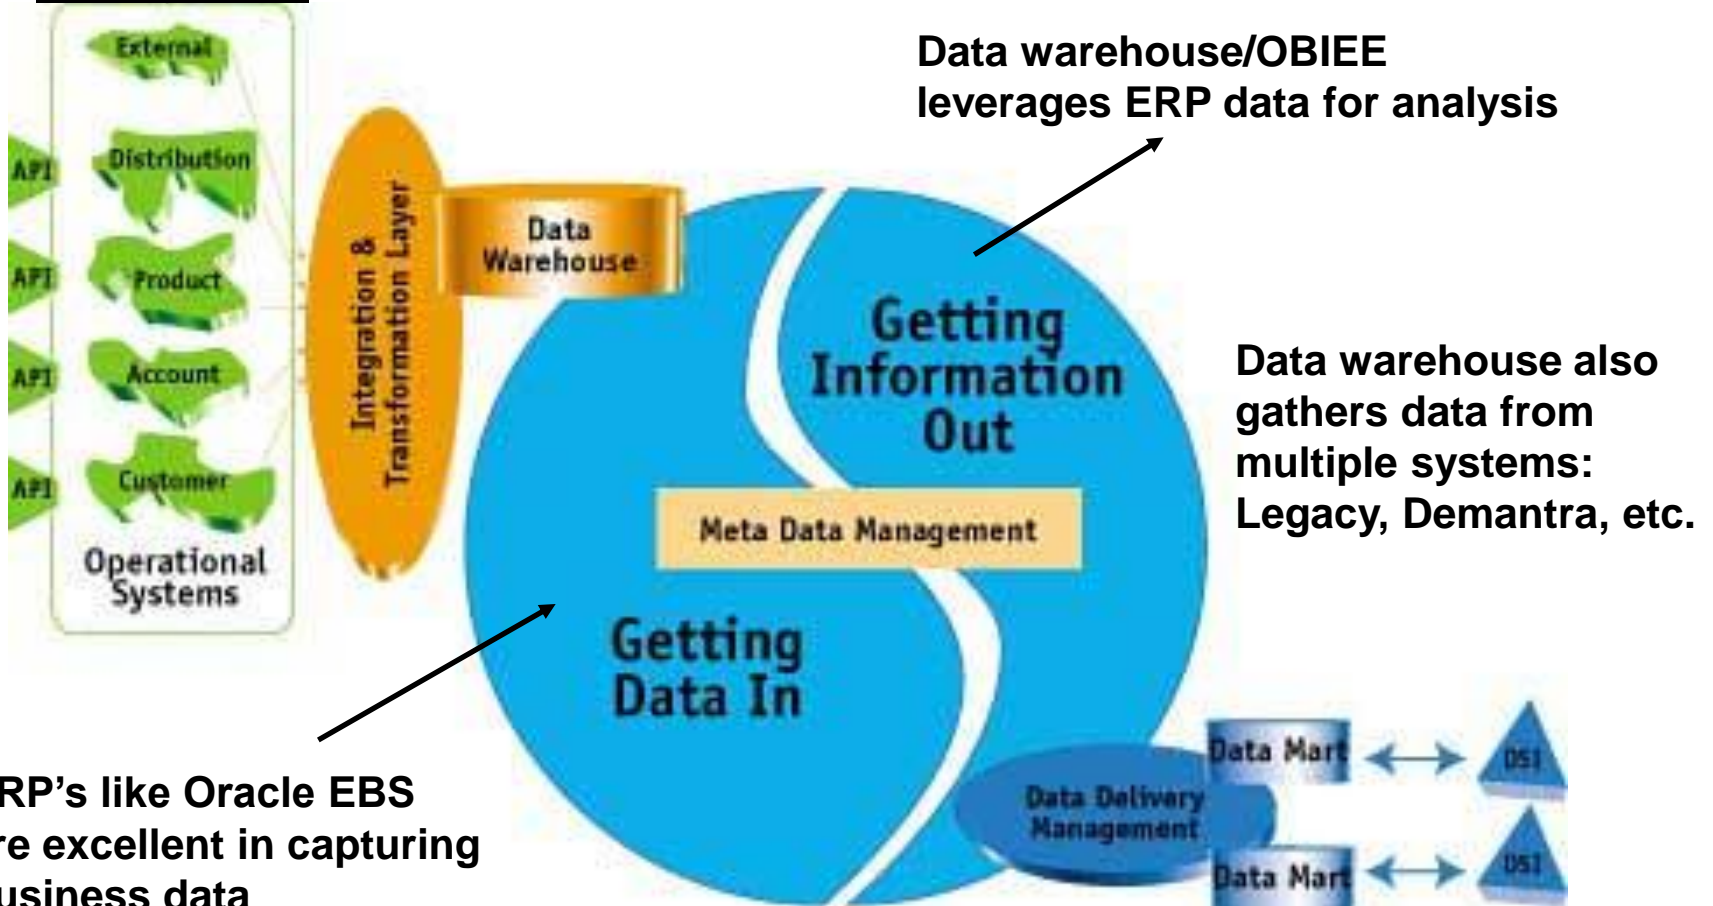

**Across Any Data Sources**

# Ideal Information Architecture

# Why the Data Warehouse?

## ERP Systems

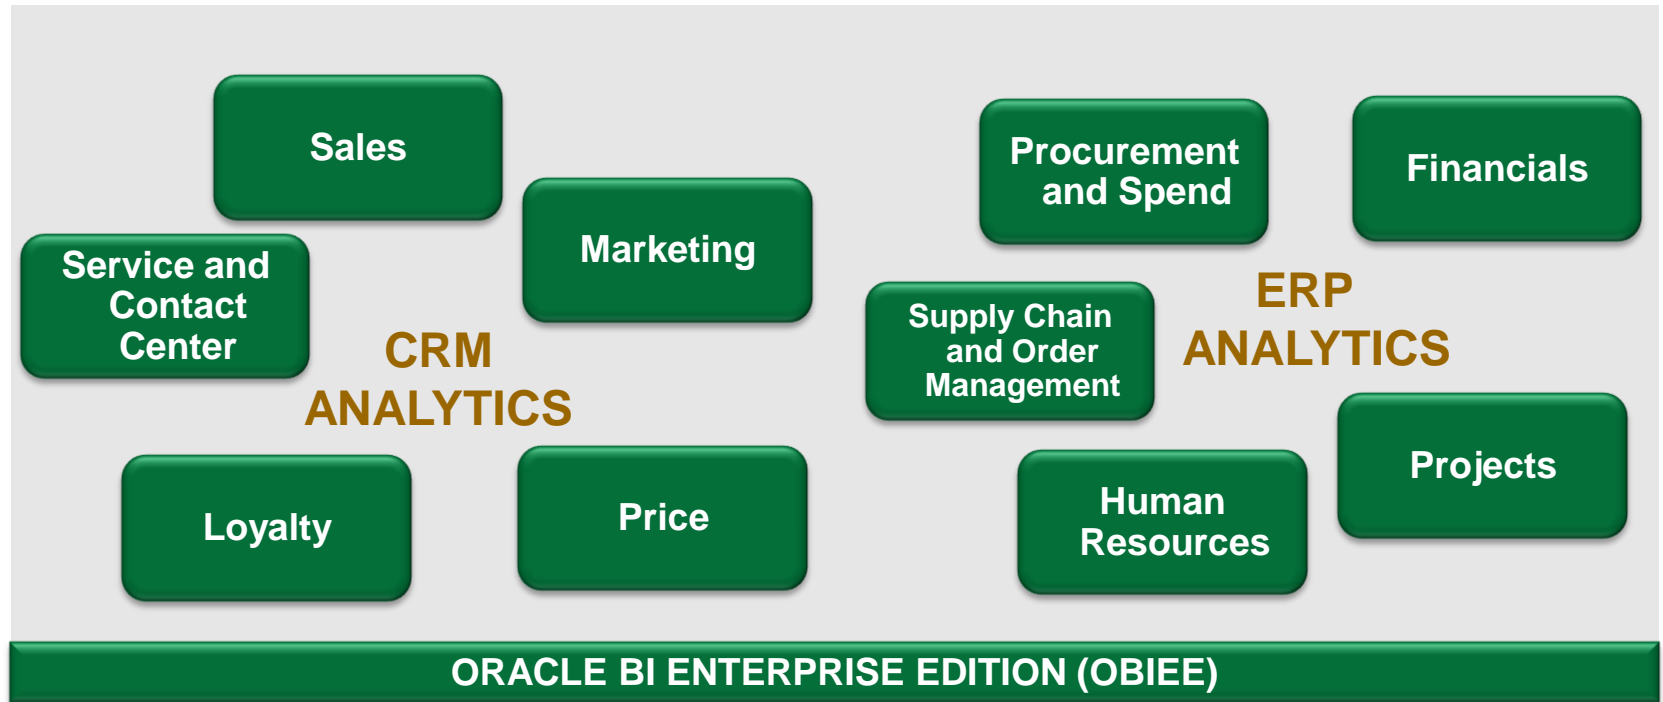

---

## Two Scenarios – User of OBIEE

- Company A (Printing/Packaging Industry)
    - ❑ ERP is JD Edwards and Legacy
    - ❑ IBM H/W and AIX shop
    - ❑ EPM - System 7 to System 11 Migration
    - ❑ ODS / Crystal Reports
    - ❑ Essbase & Demantra (for S&OP)
  - Company B (Energy Sector)
    - ❑ One Division SAP, rest legacy, EBS R12 to consolidate into one ERP
    - ❑ SAP tools for Reporting, Crystal
    - ❑ New HFM and Planning (System 11)
-

# OBIEE v/s Packaged BI Application

**ORACLE®** PeopleSoft®

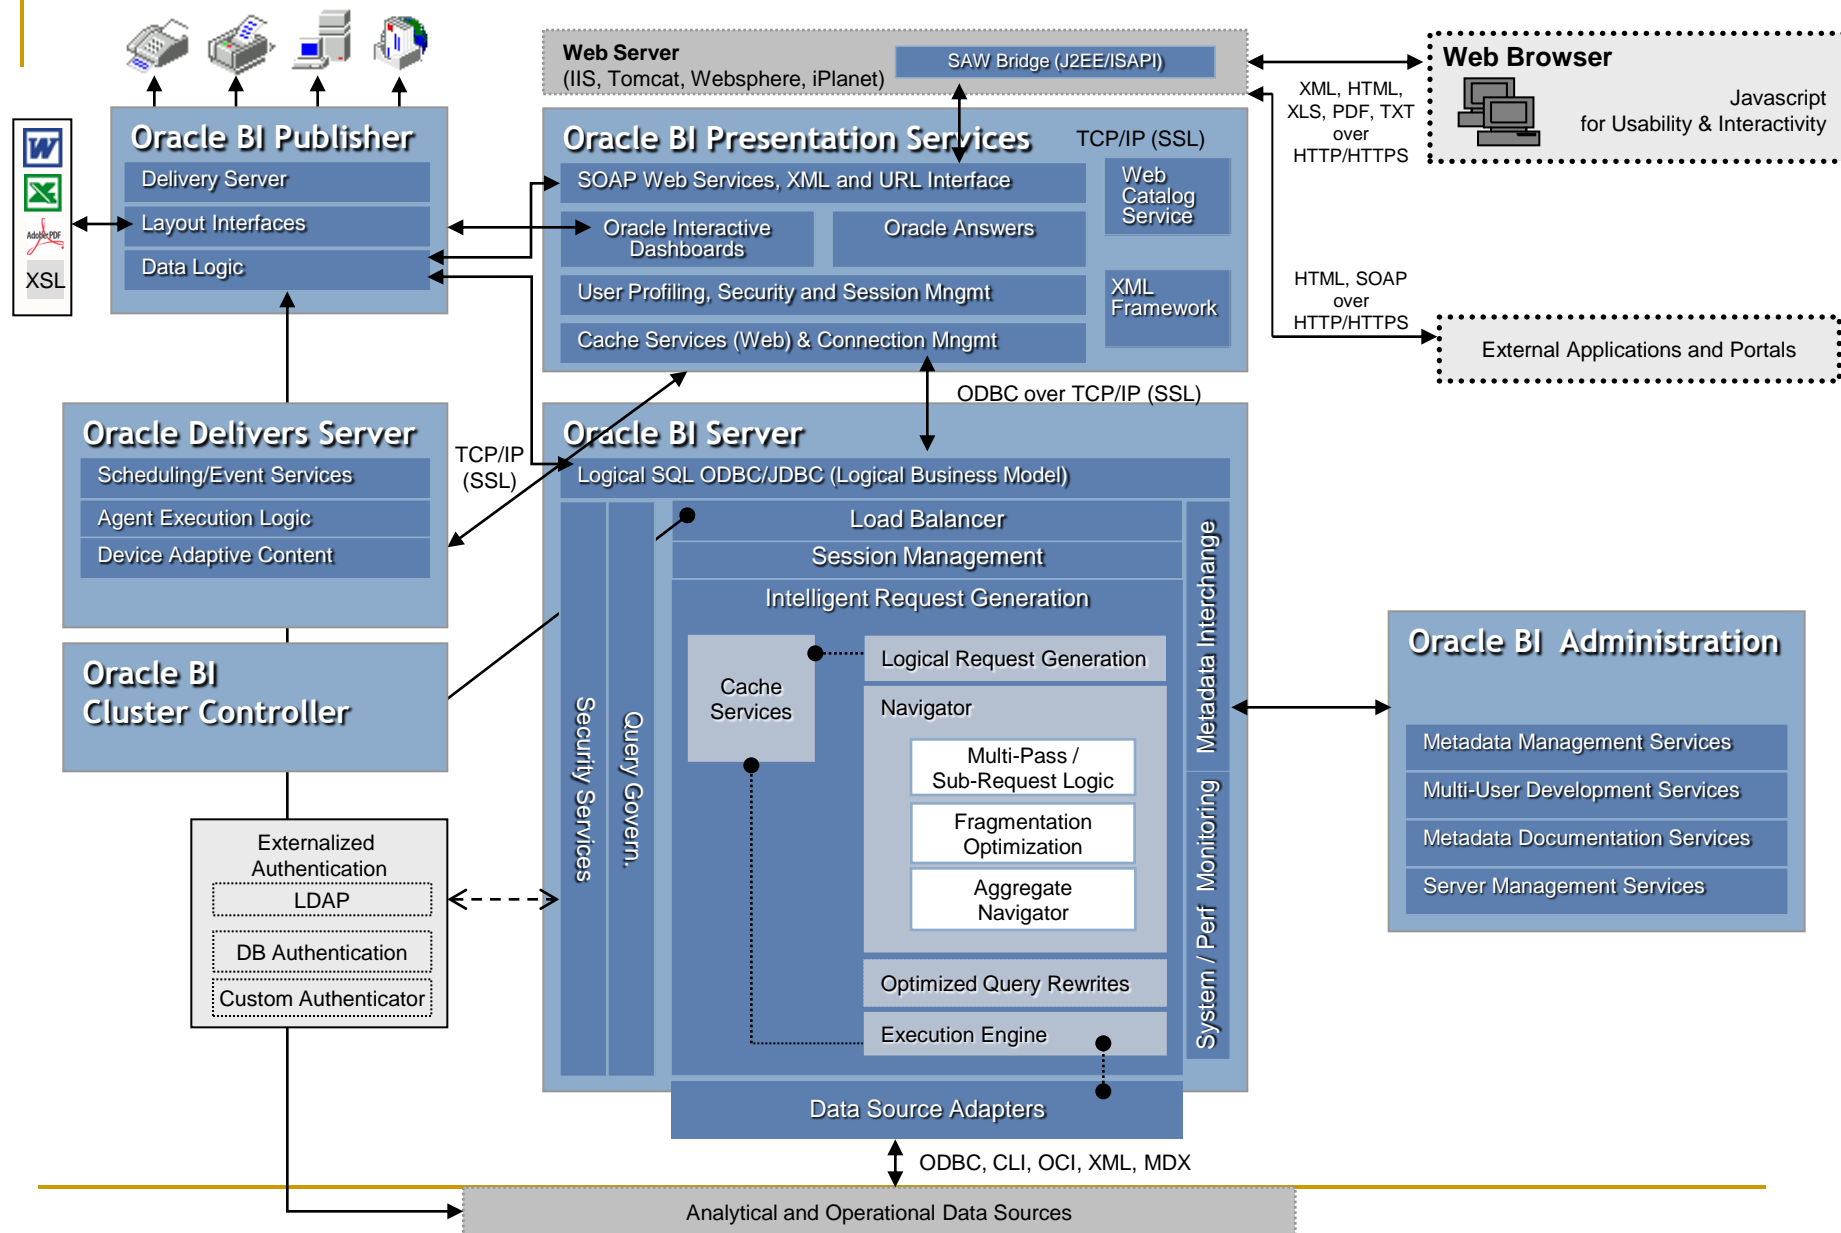

**SIEBEL**

  
**J D E D W A R D S™**

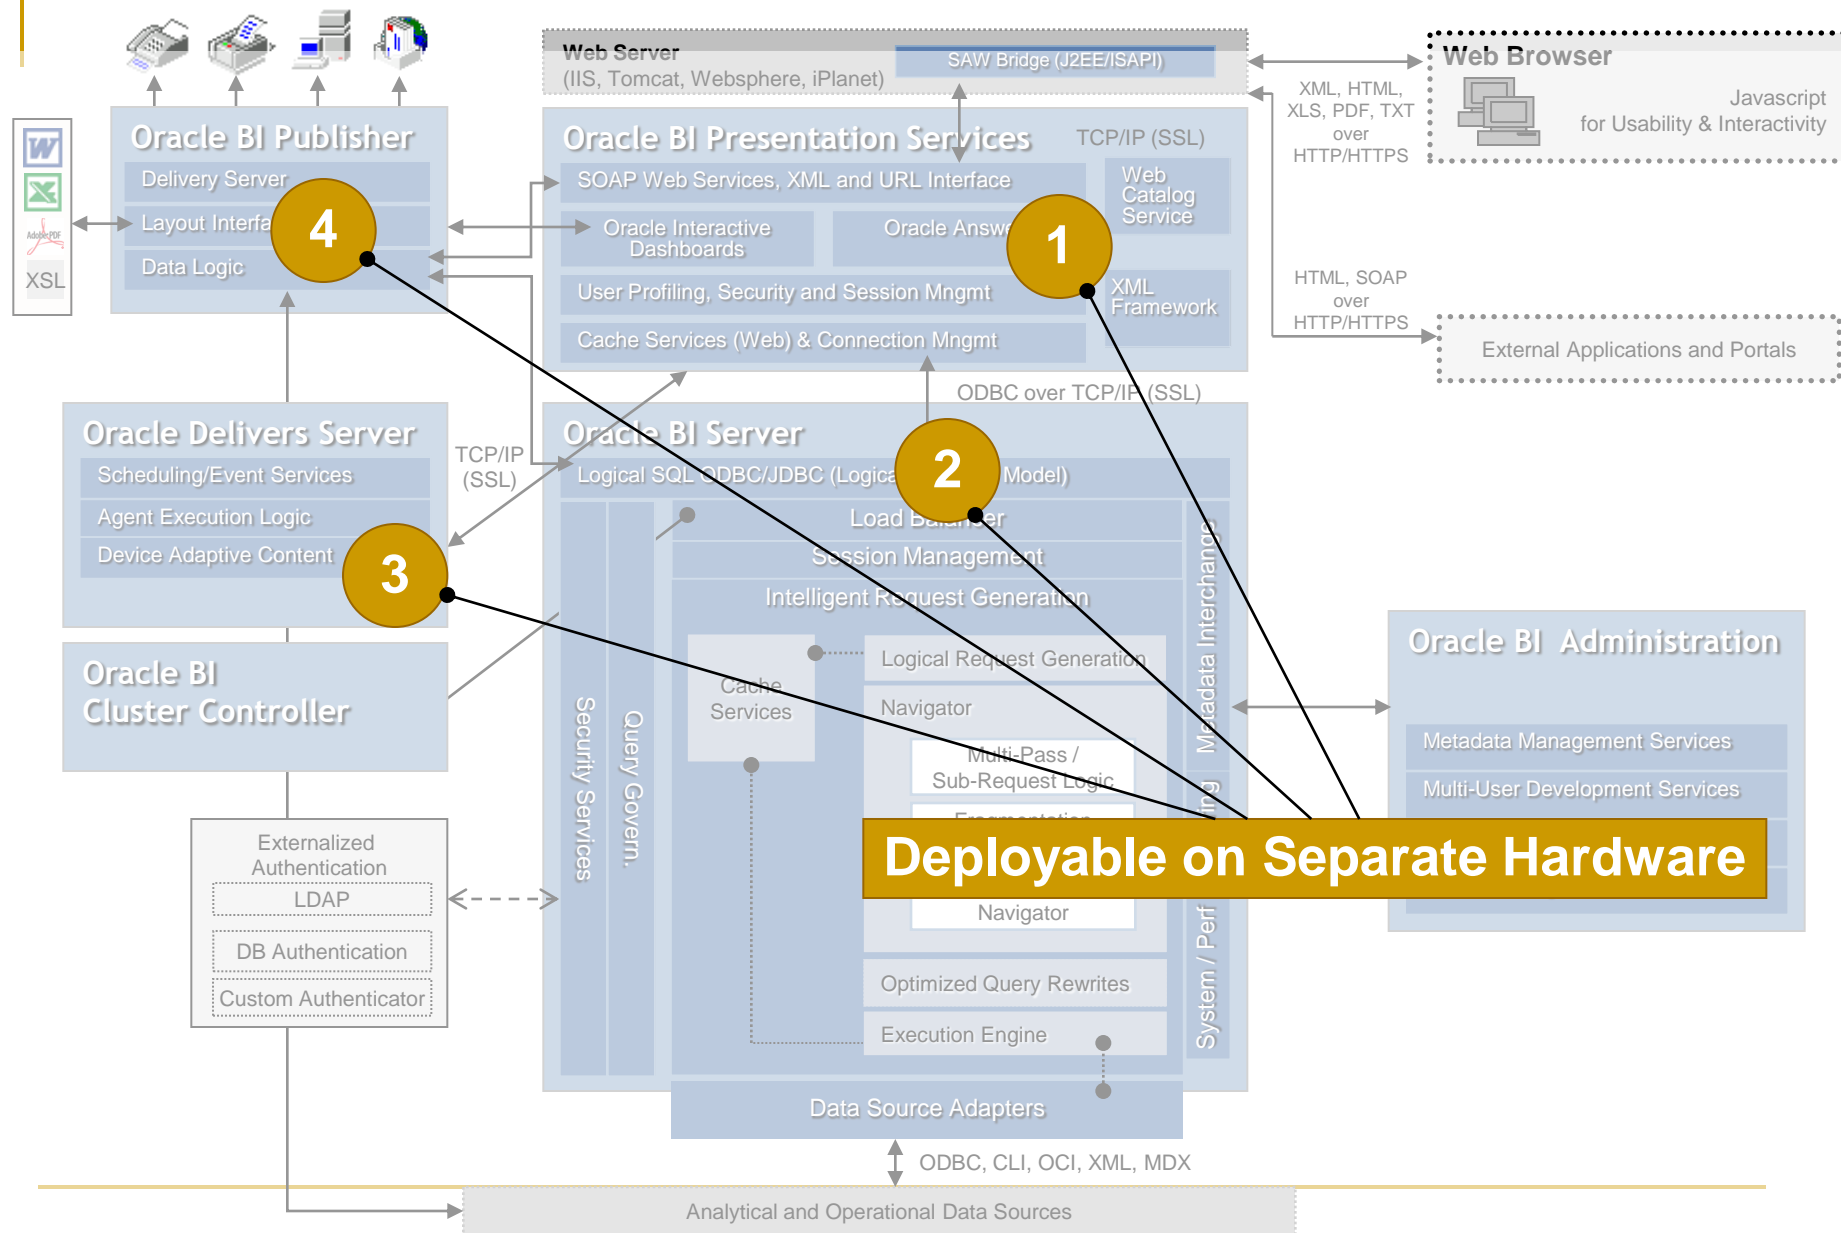

**SAP**

**AND OTHER OPERATIONAL AND ANALYTIC SOURCES**

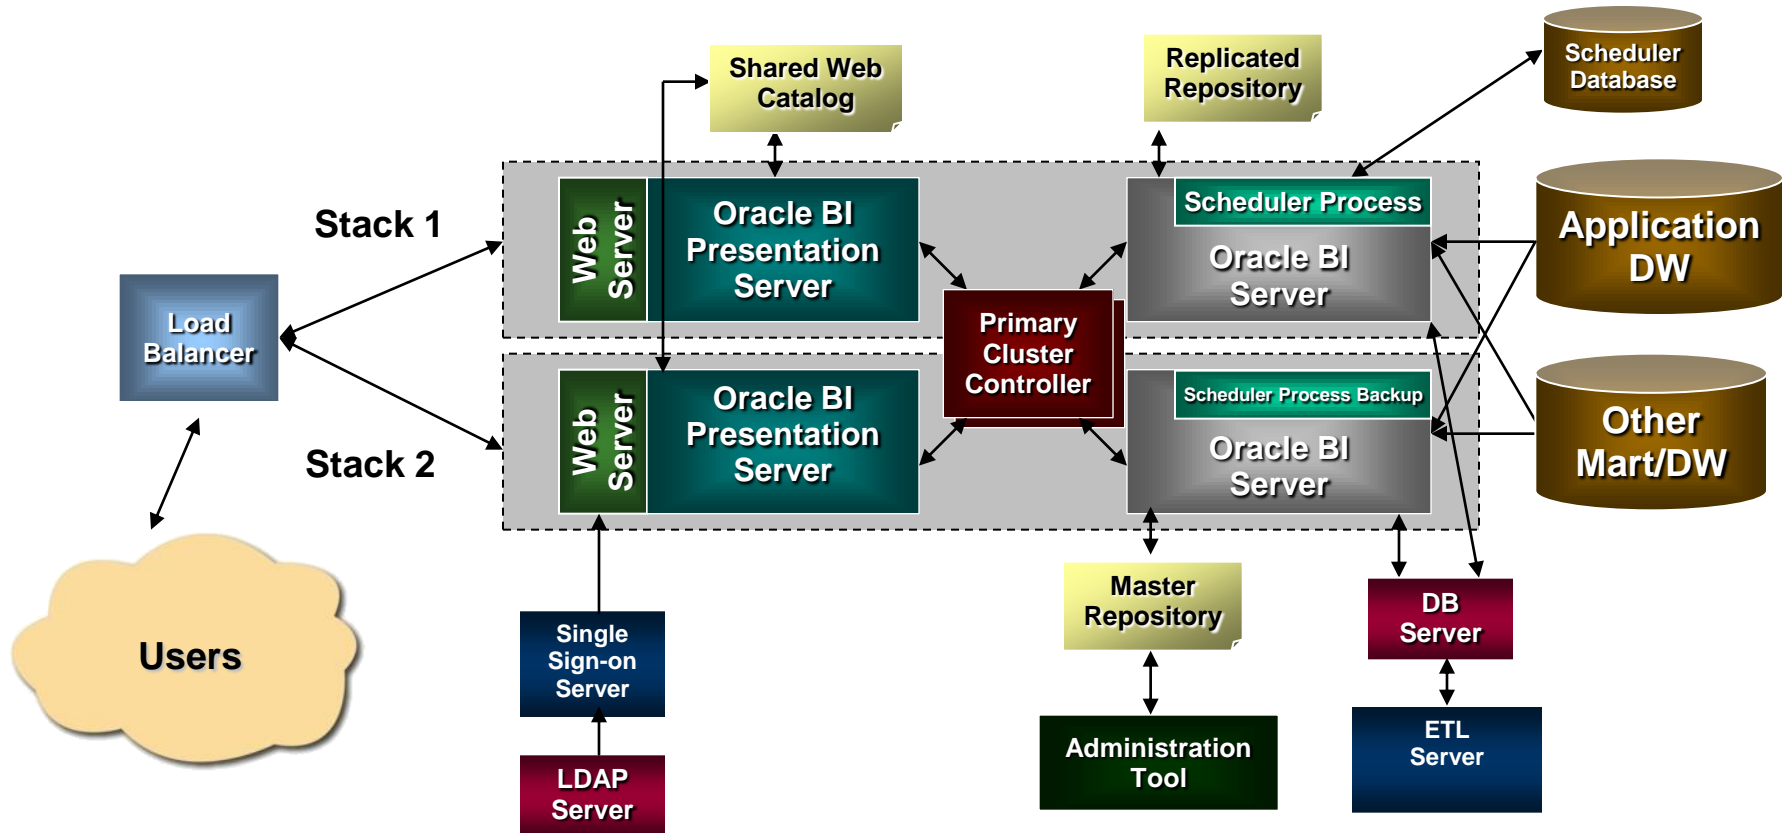

# OBIEE 10g Architecture

# OBIEE 10g Architecture

# Example 10g Deployment High Availability

# Oracle BI 11g High Level Architecture

## Oracle BI Domain

### WebLogic Domain

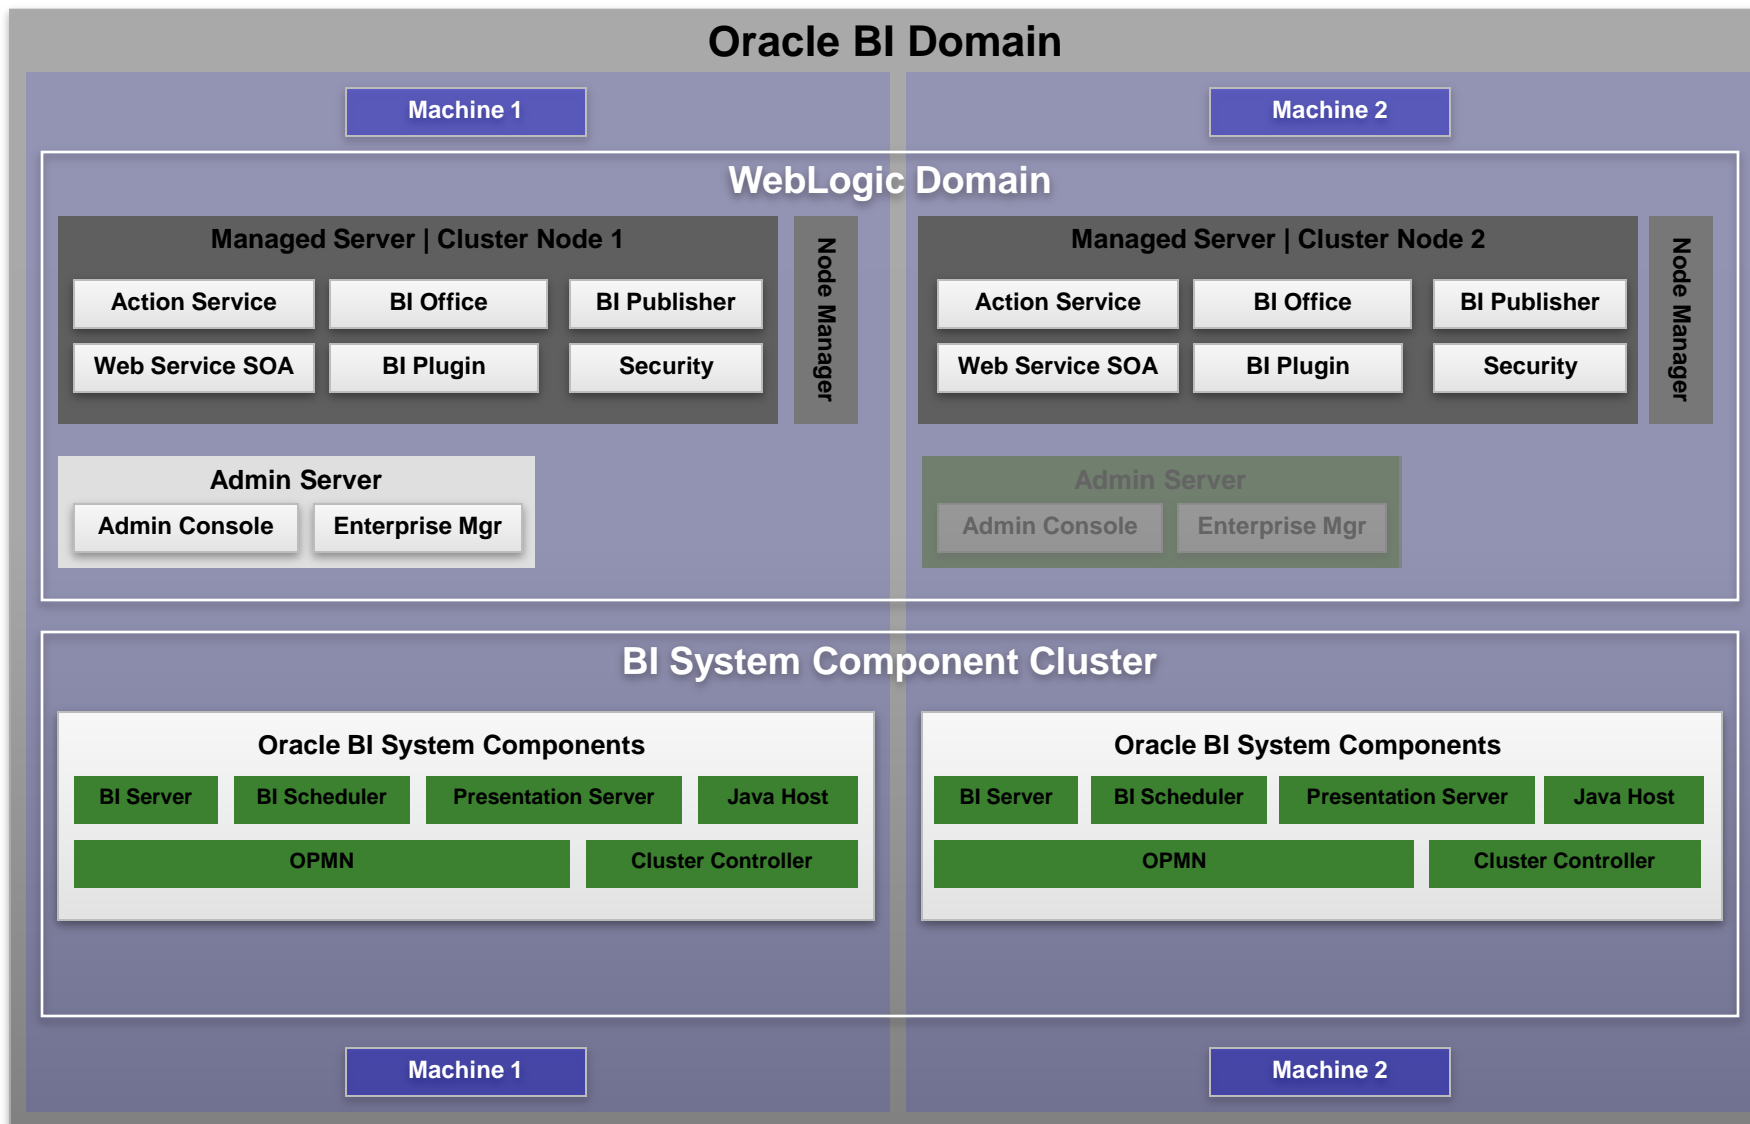

### Oracle BI System Components

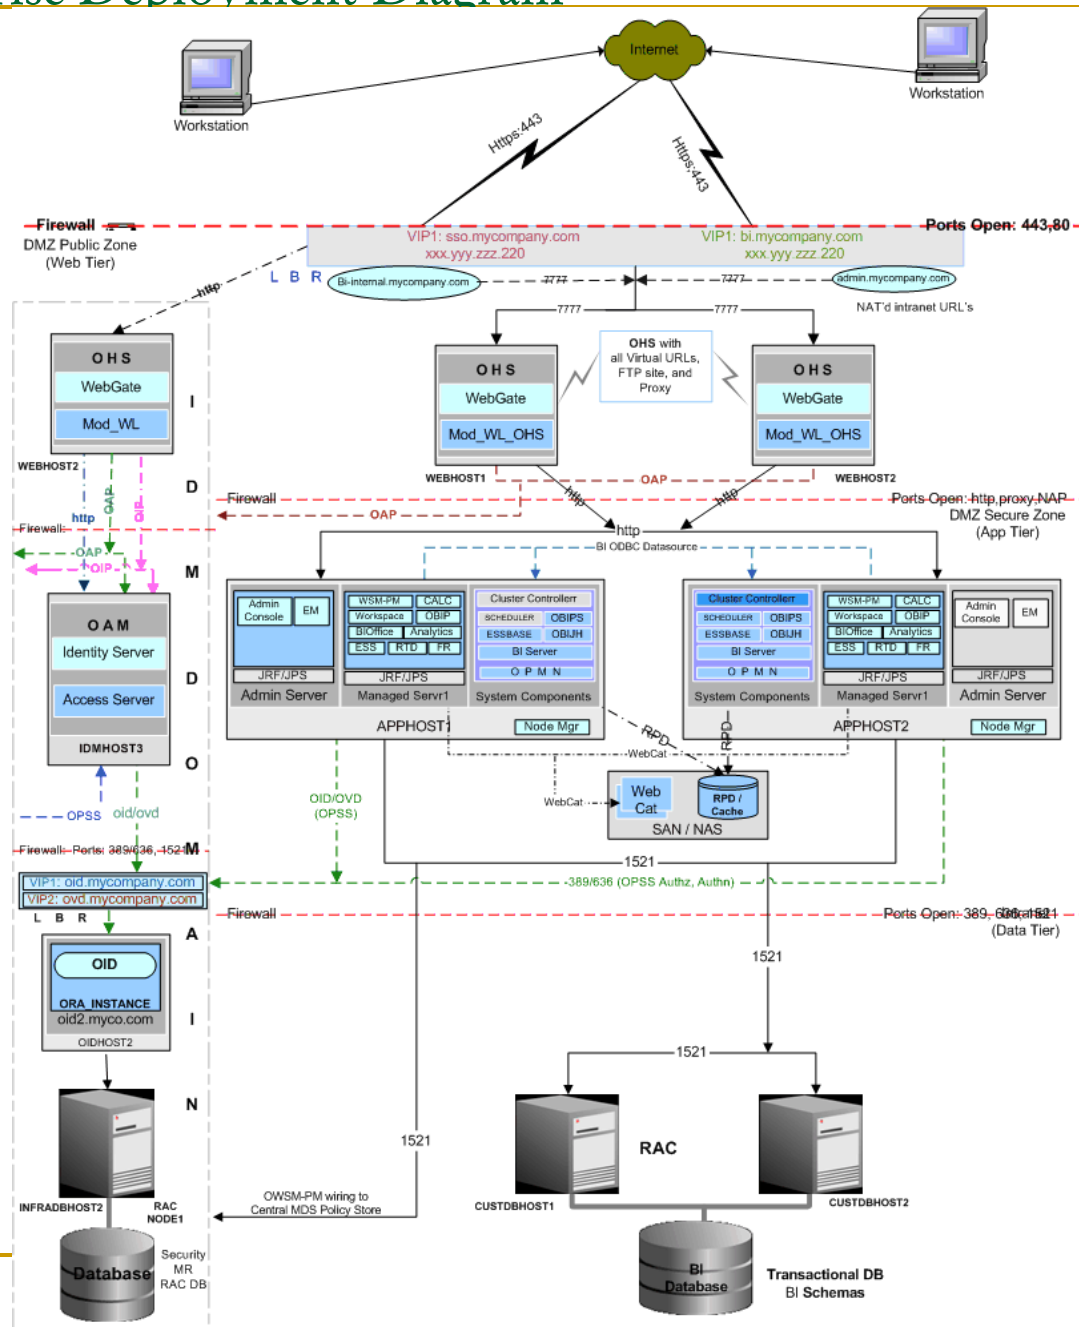

Supporting Database Schemas (Created by RCU)

# Oracle BI 11g Clustering

# Enterprise Deployment Diagram

## ■ New Features

- ❑ Olap Style reporting
- ❑ ADF integration
- ❑ Actions Framework
- ❑ Security

## ■ Ragged and Skip level hierarchies

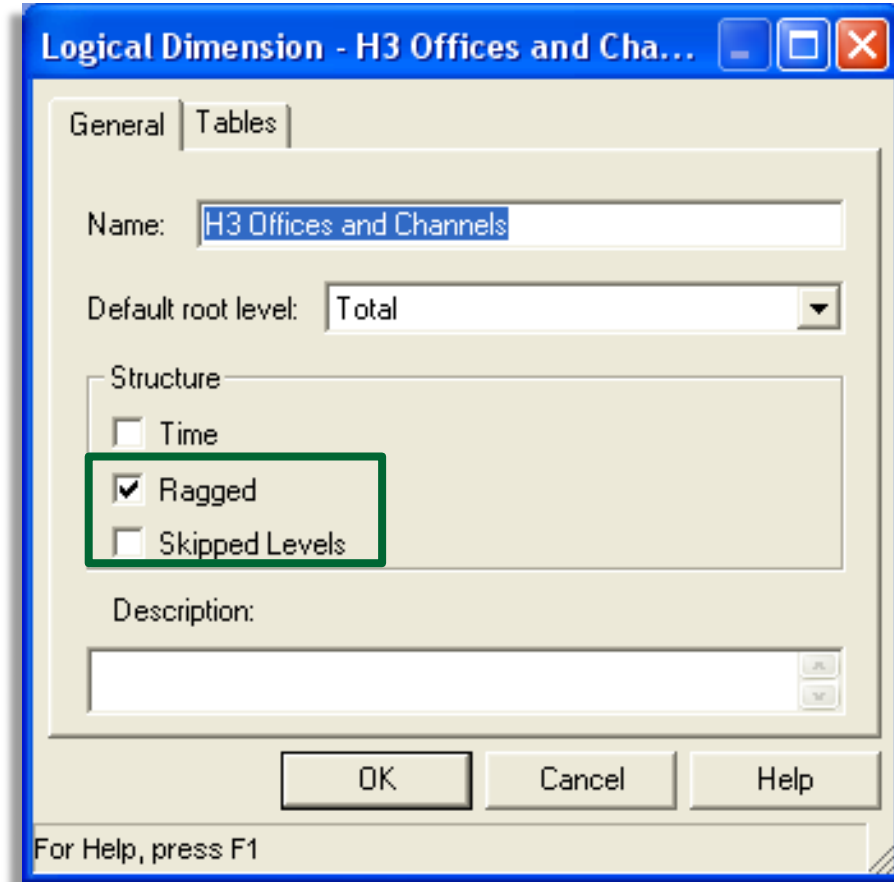

## ■ Essbase Integration

## ■ Mapping – Mapviewer integration

---

# Business Model Support for Leveled-Ragged and Skip

- Ragged and Skip Checkboxes
  - ❑ Tells server to check for NULL member names in SQL
  - ❑ Slight performance hit – only do this when necessary
- Ragged or Skip in Relational Source
  - ❑ Missing node should be a NULL field for the member name

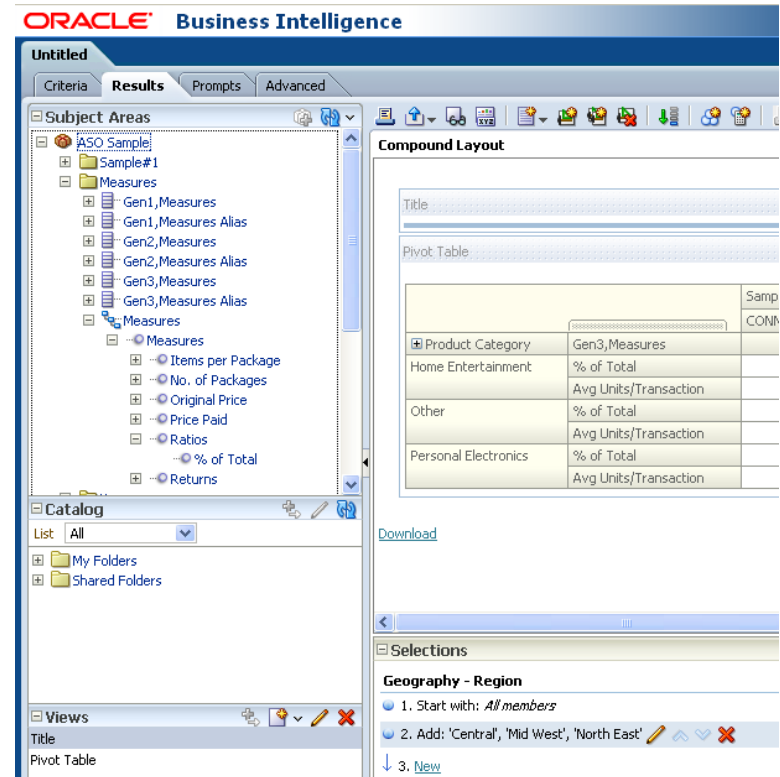

# Nulls for Skip or Ragged Levels

<u>Key</u>	<u>Member Name</u>	<u>Attribute</u>	<u>Level 3</u>	<u>Level 2</u>	<u>Level 1</u>
Prod_Key	Prod_Dsc	Color	Type	LOB	Brand
1	Starter 3-blade Razor	Black	3-blade	Razors for Men	Swordsman
2	Refill 3-blade - 4 cnt.	Black	3-blade	Razors for Men	Swordsman
3	Refill 3-blade - 15 cnt.	Black	3-blade	Razors for Men	Swordsman
4	Starter 5-blade Razor	Black	5-blade	Razors for Men	Swordsman
5	Refill 5-blade - 4 cnt.	Black	5-blade	Razors for Men	Swordsman
6	Refill 5-blade - 15 cnt.	Black	5-blade	Razors for Men	Swordsman
7	Shaving Crème	n/a	Cream	Shaving Creme	Swordsman
8	Shaving Gel	n/a	Gel	Shaving Creme	Swordsman
9	Electric Razor - Black	Black		Electric Razors	Electrosmooth
10	Electric Razor - Chrome	Chrome		Electric Razors	Electrosmooth
11	Starter Razor - Pink	Pink		Razors for Ladies	Goddess
12	Starter Razor - Blue	Blue		Razors for Ladies	Goddess
13	Refill - 6	White		Razors for Ladies	Goddess
14	Refill - 18	White		Razors for Ladies	Goddess
15	Spring Breeze Air Freshener	n/a		Air Fresheners	Spring Breeze

Nulls for skip level

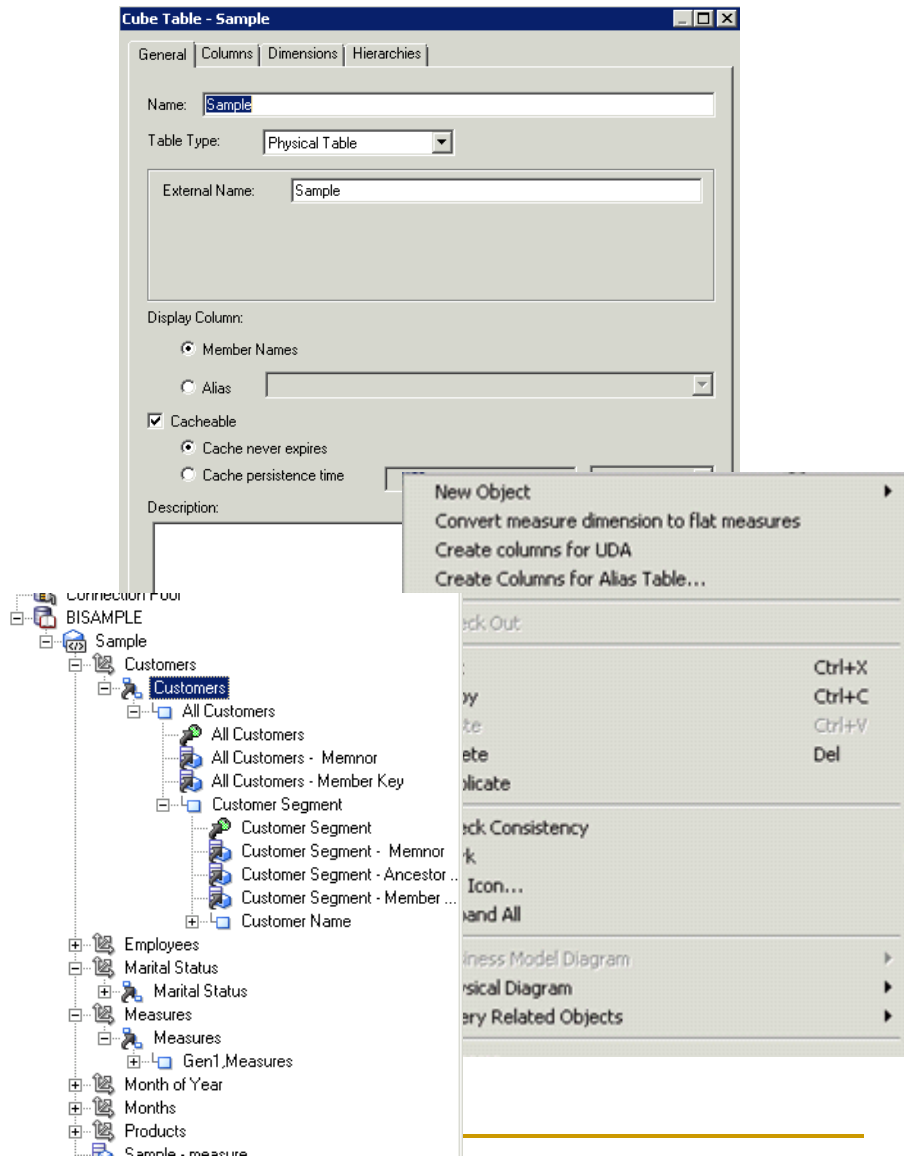

# Oracle BI Server 11gR1 Enhancements for Essbase

- Essbase MDX enhancements to support Answers+
  - ❑ Hierarchy and member browsing
  - ❑ Member selection steps
- Improved support for:
  - ❑ Measures/Accounts hierarchies
  - ❑ Aliases
  - ❑ User Defined Attributes (UDAs)
  - ❑ Value-based hierarchies
- Enhanced capabilities for federating Essbase and relational sources

# Richer Essbase Metadata in OBIEE Admin Tool

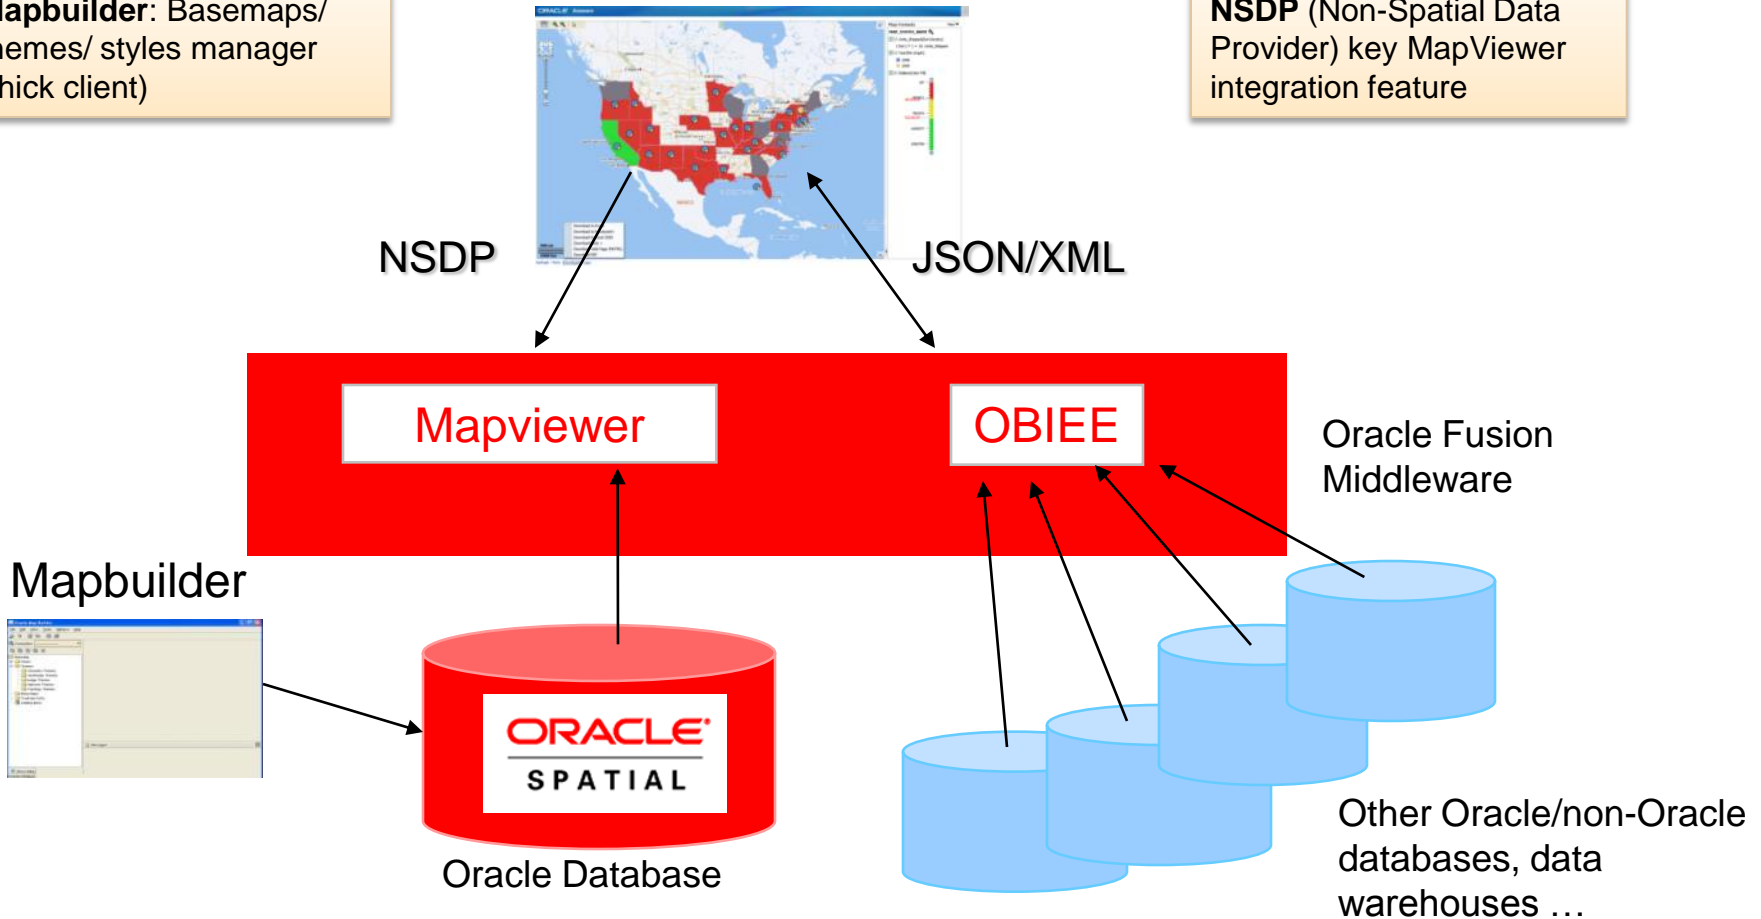

- ❑ Ability to create columns for UDAs
- ❑ Ability to create columns for Alias tables
- ❑ Measure hierarchy modeling
- ❑ Value-hierarchy modeling
- ❑ Alternate hierarchies automatically imported as separate hierarchies
- ❑ Member order column

# MapViewer BI Integration Architecture

**Mapbuilder:** Basemaps/  
themes/ styles manager  
(thick client)

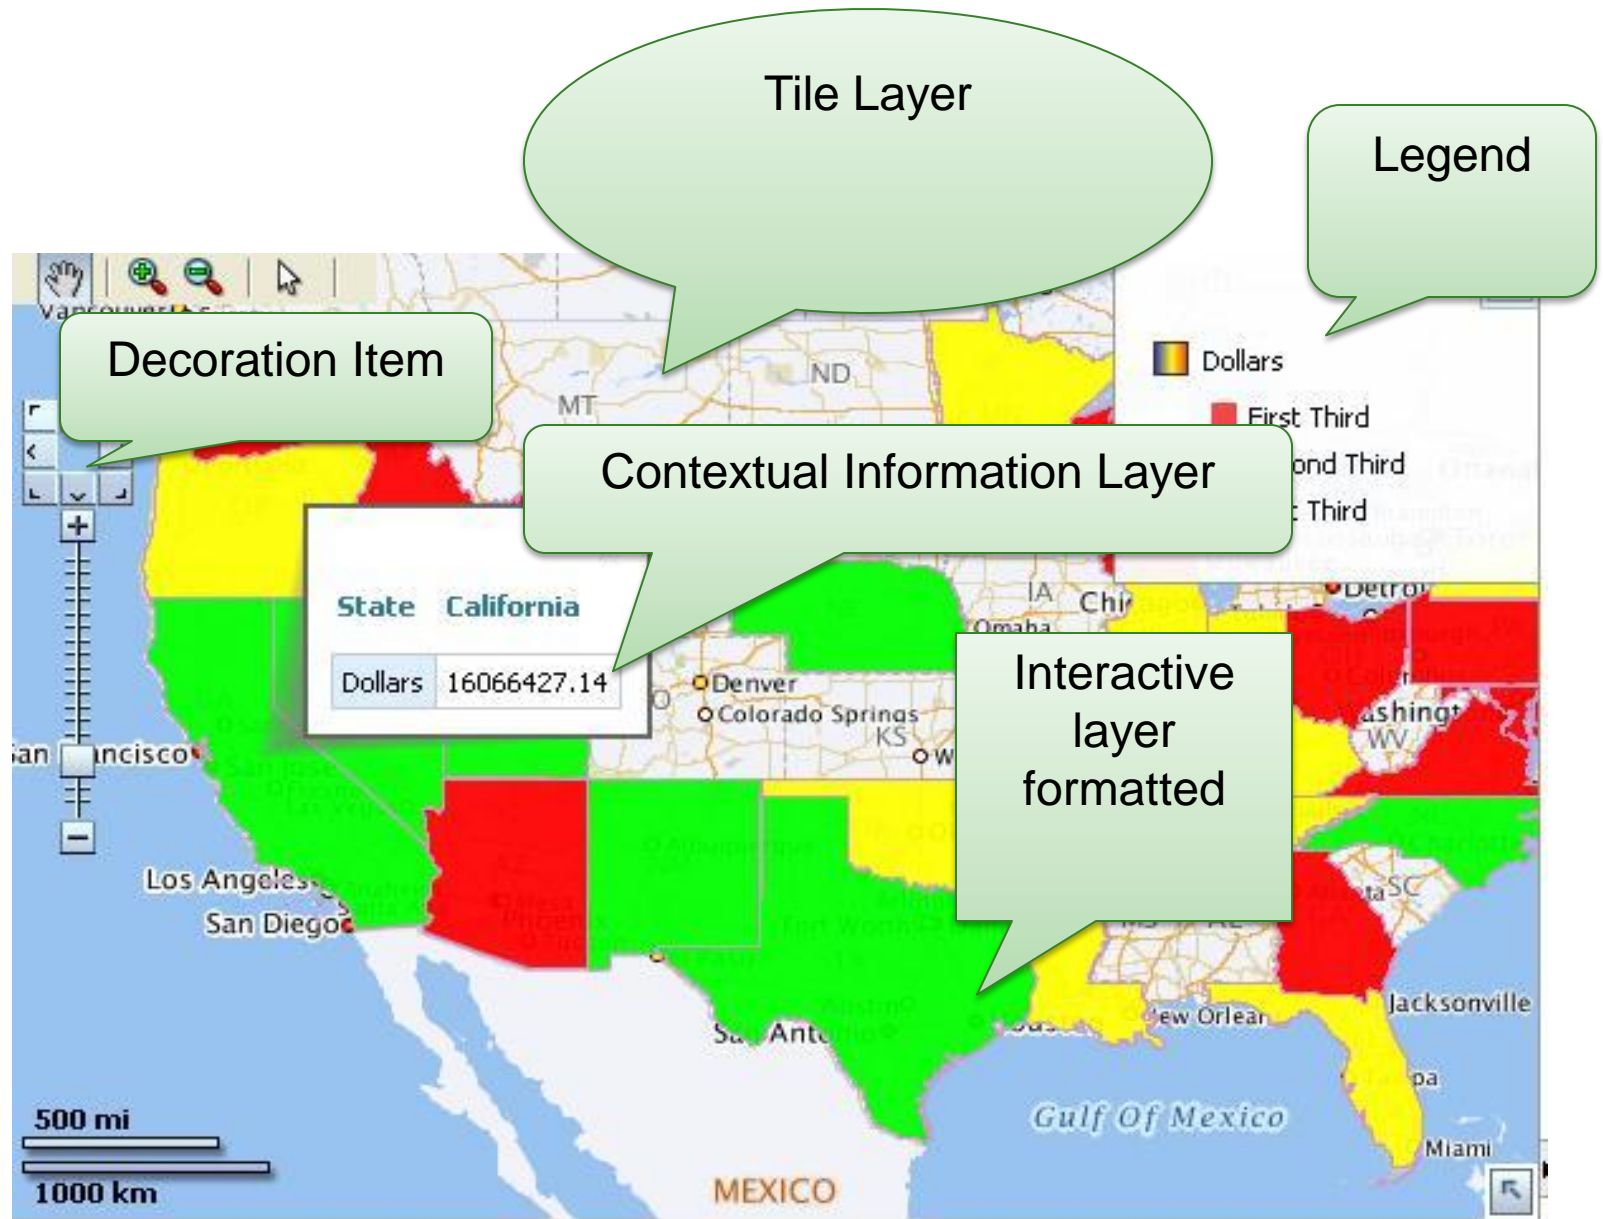

**NSDP** (Non-Spatial Data  
Provider) key MapViewer  
integration feature

---

# BI Presentation Services (Admin)

- Import themes, tile layers, styles created in mapviewer into the OBIEE catalog creating a central repository and associate subject areas with the maps
  - Provide mapping between BI metadata and Mapviewer metadata
  - Provide layer ordering, zoom levels on the map
-

# About Me!

## **Rahul Kundavaram:**

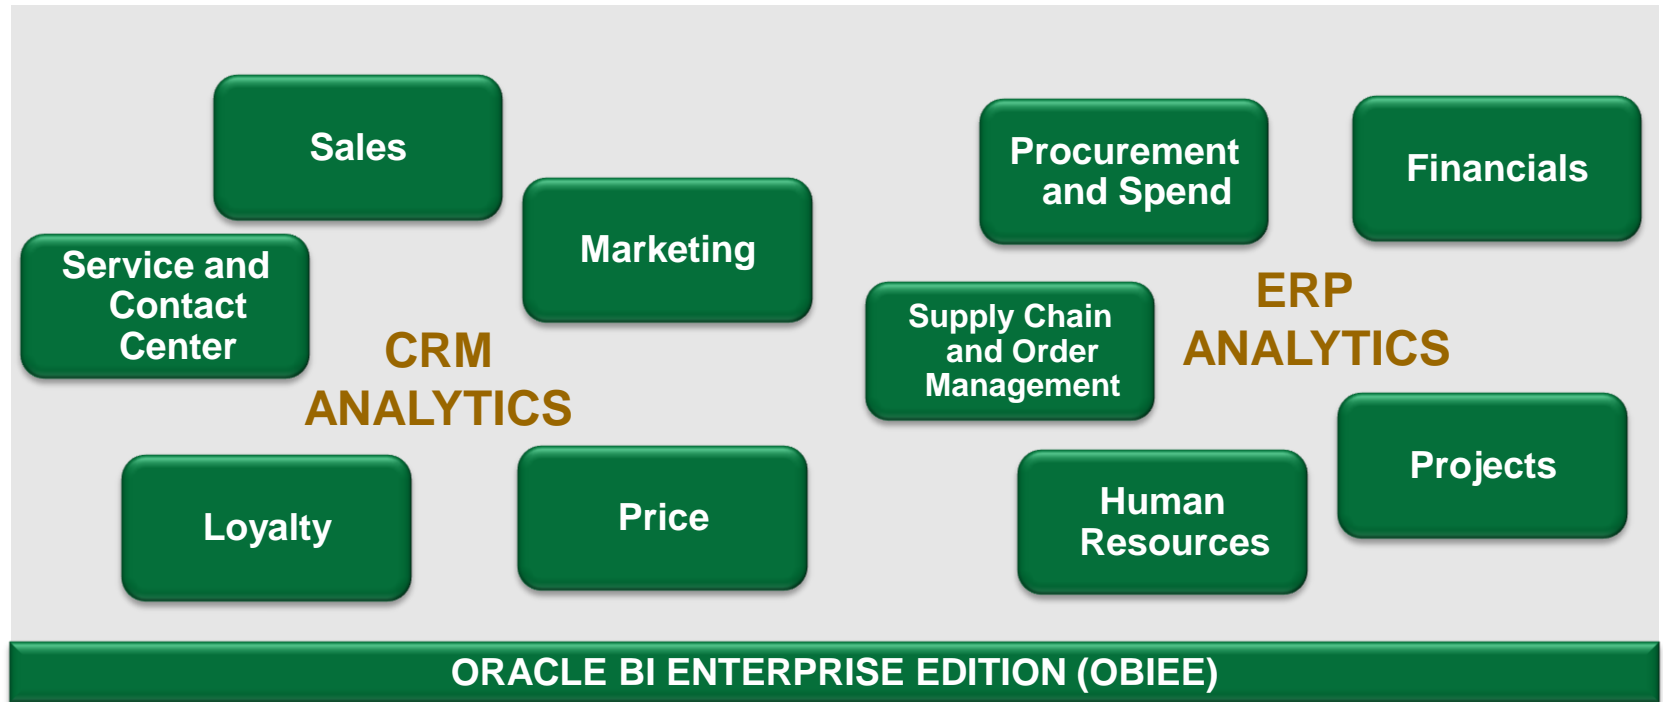

- Senior Principal Consultant in Oracle – BI Practice
- Skills in OBIEE / BI Applications, Discoverer, BI Publisher, Oracle EBS
- 10+Years of experience in all these areas
- Implemented BI Solutions for Various Industries including Retail, Healthcare, Federal, Insurance, Finance and Media.

---

# Acronyms

## New Oracle BI Apps Rel 7.9.6.2 Sep '10

How to decide what BI application are Available for a Given ERP system?

Oracle's JD Edwards EnterpriseOne <sup>12</sup>	8.11SP1, 8.12, 9.0	Oracle Financial Analytics Fusion Edition	Oracle's JD Edwards EnterpriseOne Financial Management
Oracle's JD Edwards EnterpriseOne	8.12 <sup>13</sup> , 9.0 <sup>13</sup>	Oracle Supply Chain and Order Management Analytics <sup>14</sup>	Oracle's JD Edwards EnterpriseOne Inventory Management  Oracle's JD Edwards EnterpriseOne Product Data Management  Oracle's JD Edwards EnterpriseOne Sales Order Management
Oracle's JD Edwards World <sup>15</sup>	A9.2	Oracle Financial Analytics Fusion Edition	Oracle's JD Edwards World Financial Management
Universal Source	N/A	All available Oracle Business Intelligence applications	N/A

Vendor and Product	Version	Oracle Business Intelligence Application	Associated Source Application or Module
Oracle eBusiness Suite	11.5.10, R12.0, R12.1.1 <sup>4</sup> , R12.1.2 <sup>5</sup>	Oracle Procurement and Spend Analytics Fusion Edition <sup>6</sup>	Oracle Purchasing/Procurement  Oracle iProcurement  Oracle Financials (Payables)  Oracle iExpenses
		Oracle Financial Analytics Fusion Edition <sup>7</sup>	Oracle Financials (GL, Payables, Receivables)
		Oracle Human Resources Analytics Fusion Edition	Oracle Human Resources  Oracle Payroll  Oracle Learning Management  Oracle iRecruitment
		Oracle Project Analytics Fusion Edition <sup>8</sup>	Oracle Project Costing  Oracle Project Billing
		Oracle Service Analytics Fusion Edition	Oracle Teleservice <sup>9</sup>  Oracle iSupport <sup>9</sup>
Oracle's PeopleSoft Enterprise	8.9, 9.0, 9.1 <sup>10</sup>	Oracle Financial Analytics Fusion Edition	Oracle's PeopleSoft Financials (GL, Accounts Payable, Accounts

# BI Applications (OBIA) – Downloading the Different Components

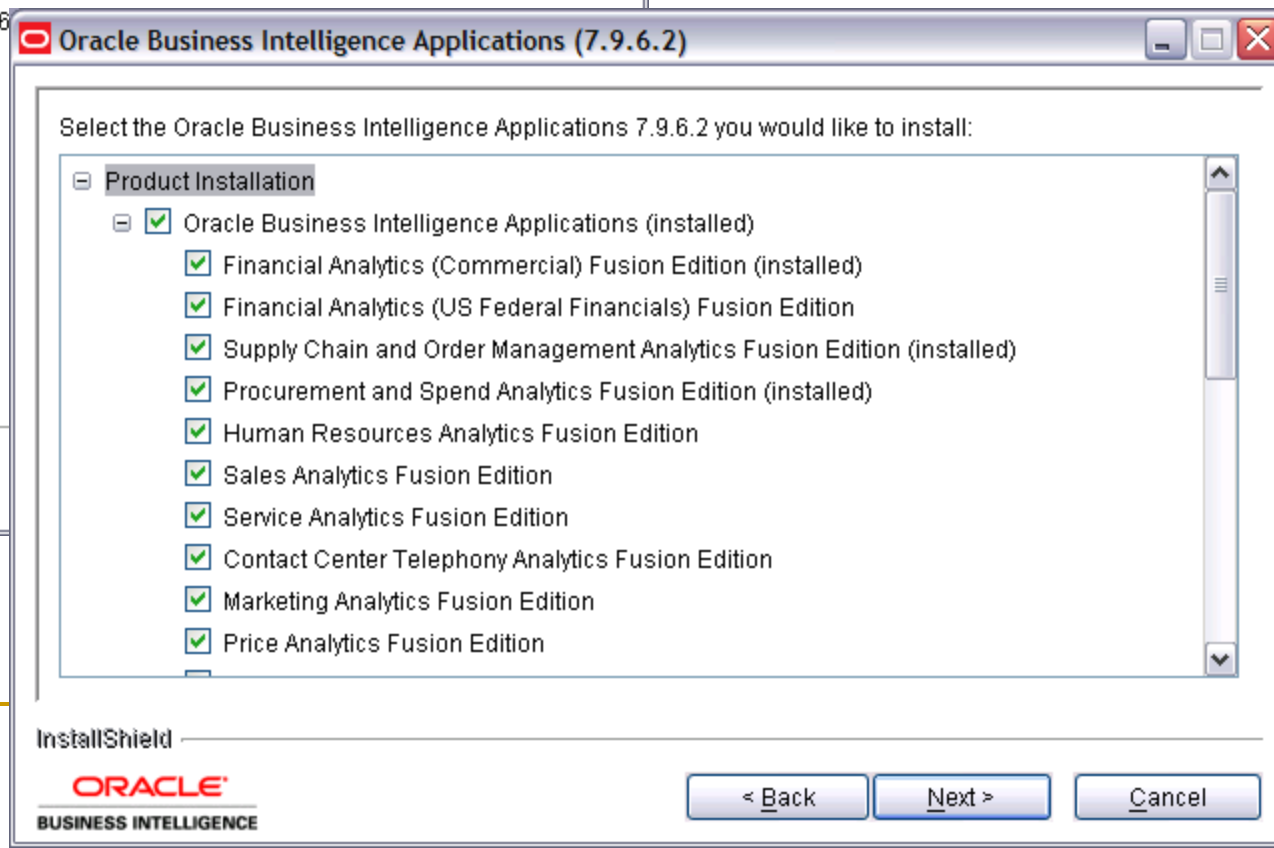

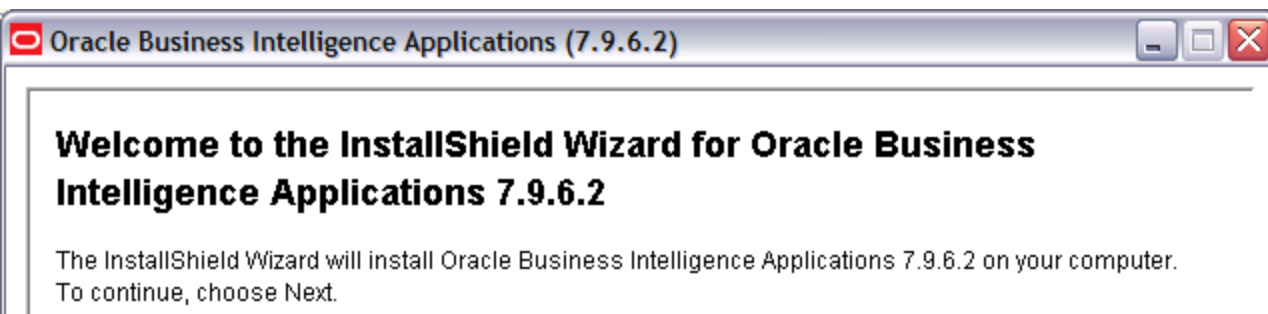

Select a Product Pack  

Platform **Micr** Results

Select	Description	Release	Part Number	Updated	# Parts / Size
<input checked="" type="radio"/>	<a href="#">Oracle Business Intelligence (10.1.3) Media Pack for Microsoft Windows (32-bit)</a>	10.1.3.0.0	B36246-24	AUG-10-2009	52 / 31G
<input type="radio"/>	<a href="#">Oracle Business Intelligence 10g Release 1 (10.1.2.0.2) Standard Edition Media Pack</a>	10.1.2.0.2	B35739-01	NOV-09-2006	23 / 11G
<input type="radio"/>	<a href="#">Oracle Business Intelligence Applications 7.9.5.2 for Oracle Data Integrator Media Pack for Microsoft Windows (32-bit)</a>	7.9.5.2.0	B54513-01	APR-23-2009	14 / 6.2G

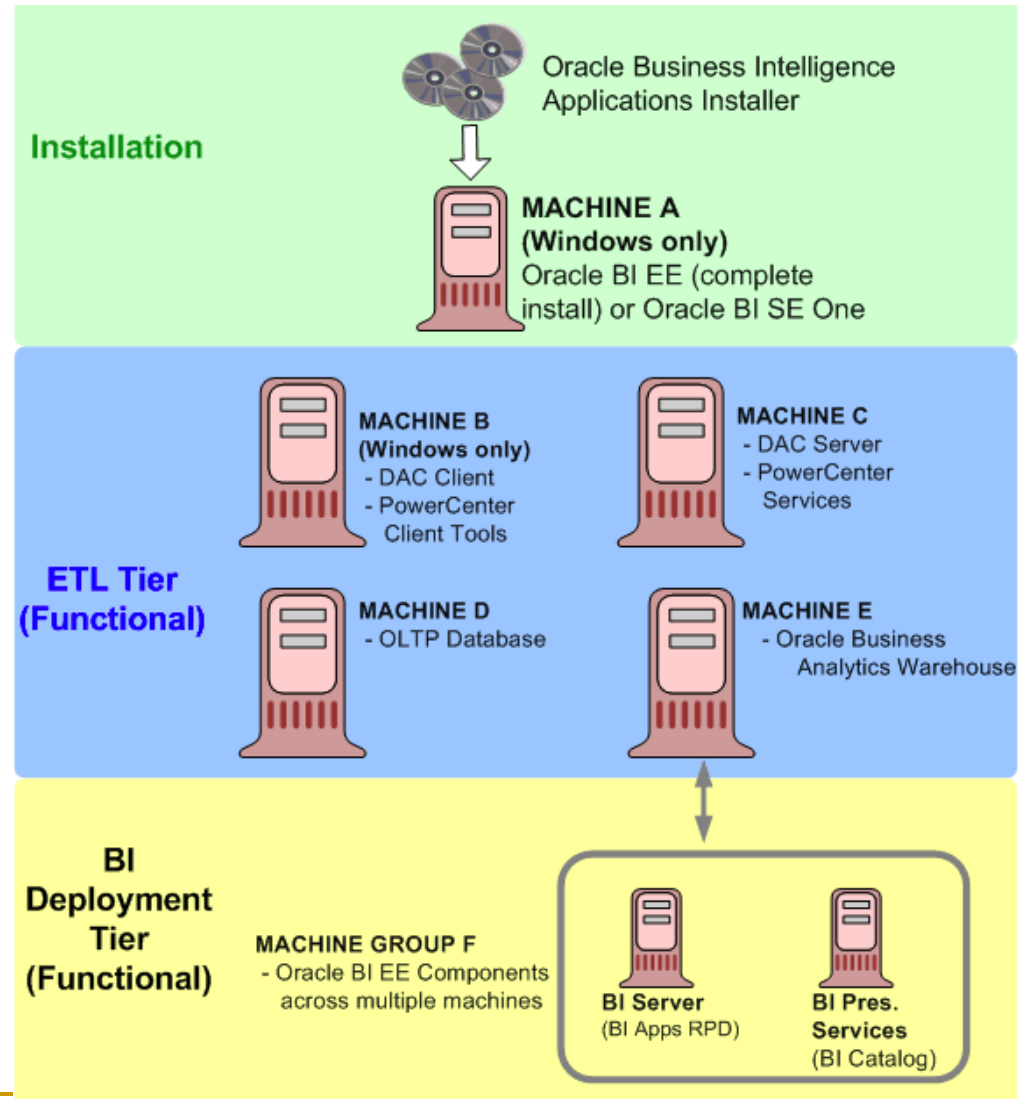

<input type="button" value="Download"/>	Oracle Business Intelligence Applications 7.9.6	V16390-01	319M
<input type="button" value="Download"/>	Oracle Business Intelligence Data Warehouse Administration Console 10.1.3.4.1 for Microsoft Windows	V16377-01	181M
<input type="button" value="Download"/>	Informatica PowerCenter and PowerConnect Adapters 8.6.0 for Windows x86 (32-bit) (Part 1 of 2)	V16329-01 Part 1 of 2	1.1G
<input type="button" value="Download"/>	Informatica PowerCenter and PowerConnect Adapters 8.6.0 for Windows x86 (32-bit) (Part 2 of 2)	V16329-01 Part 2 of 2	977M

# OBIA 7.9.6.2

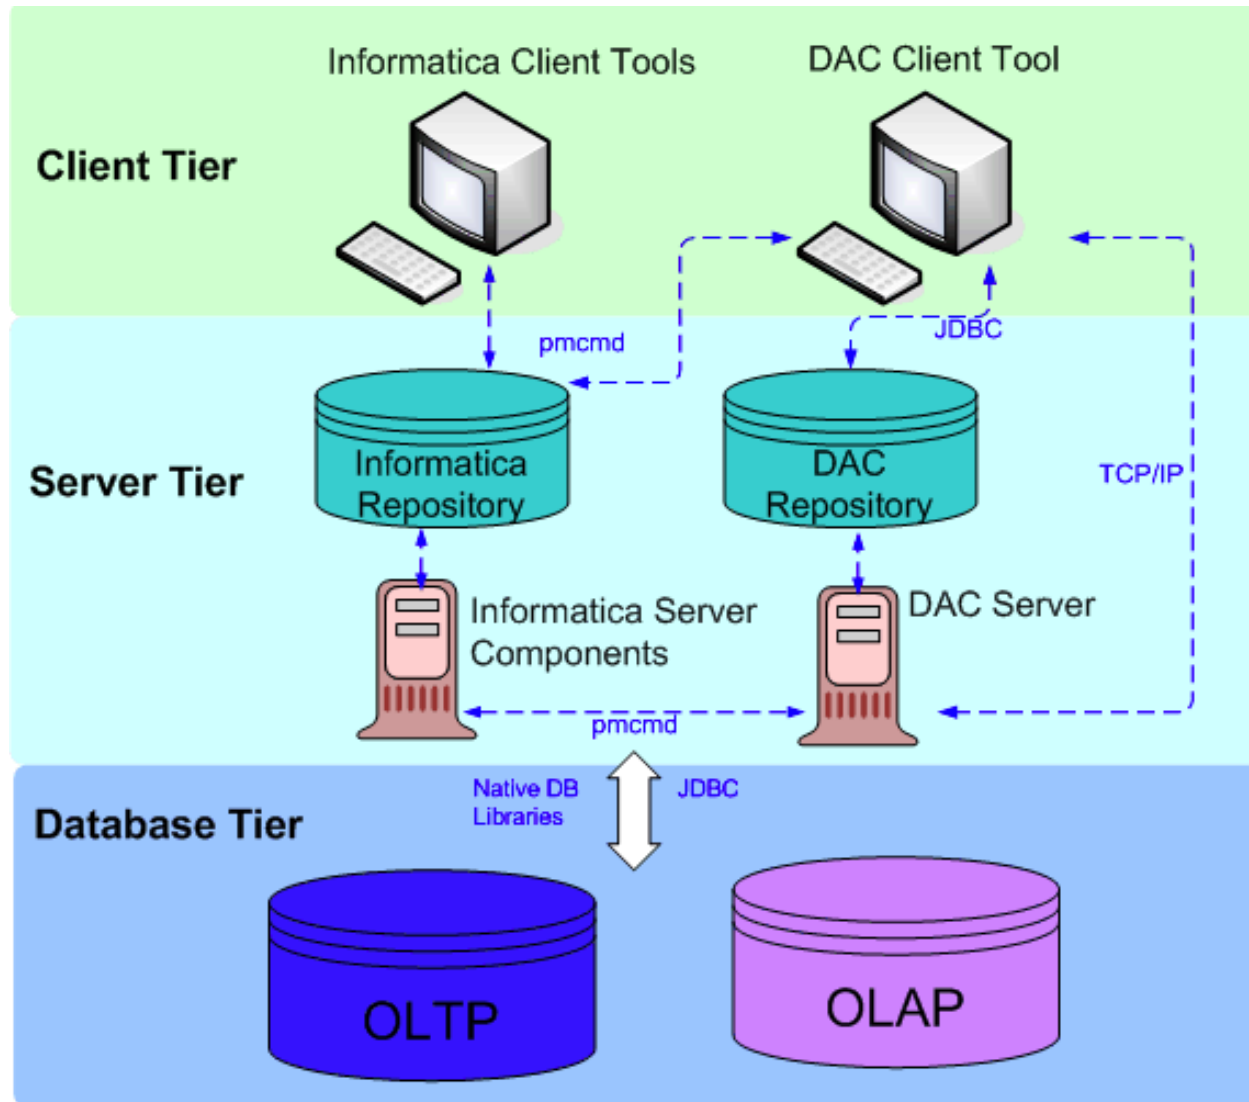

## Install Process

- End user machines requires no software, browser based assess
- Windows boxes required for client software and for transferring some server software (A and B)
- Co-location of Informatica PowerCenter Services and DAC Server – **C**
- Clients can be installed on multiple Windows boxes

# Supporting Infrastructure – Informatica and DAC

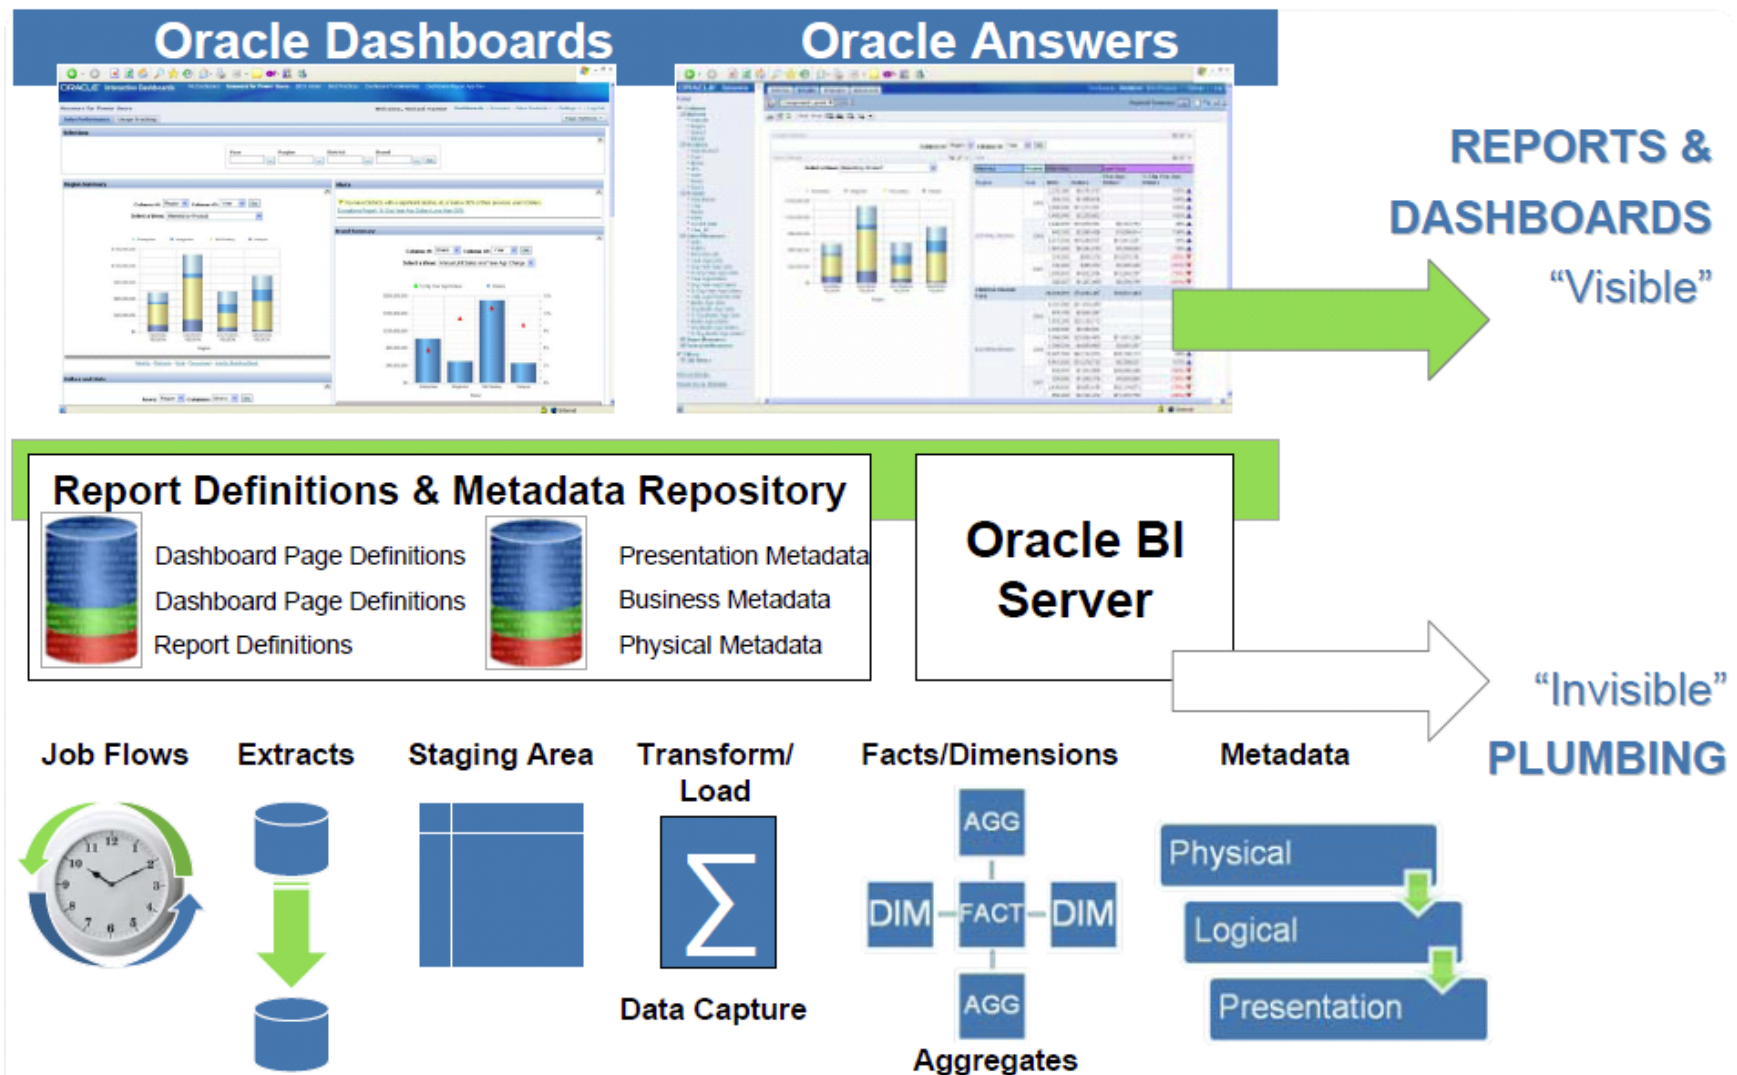

## High Level Data Flow

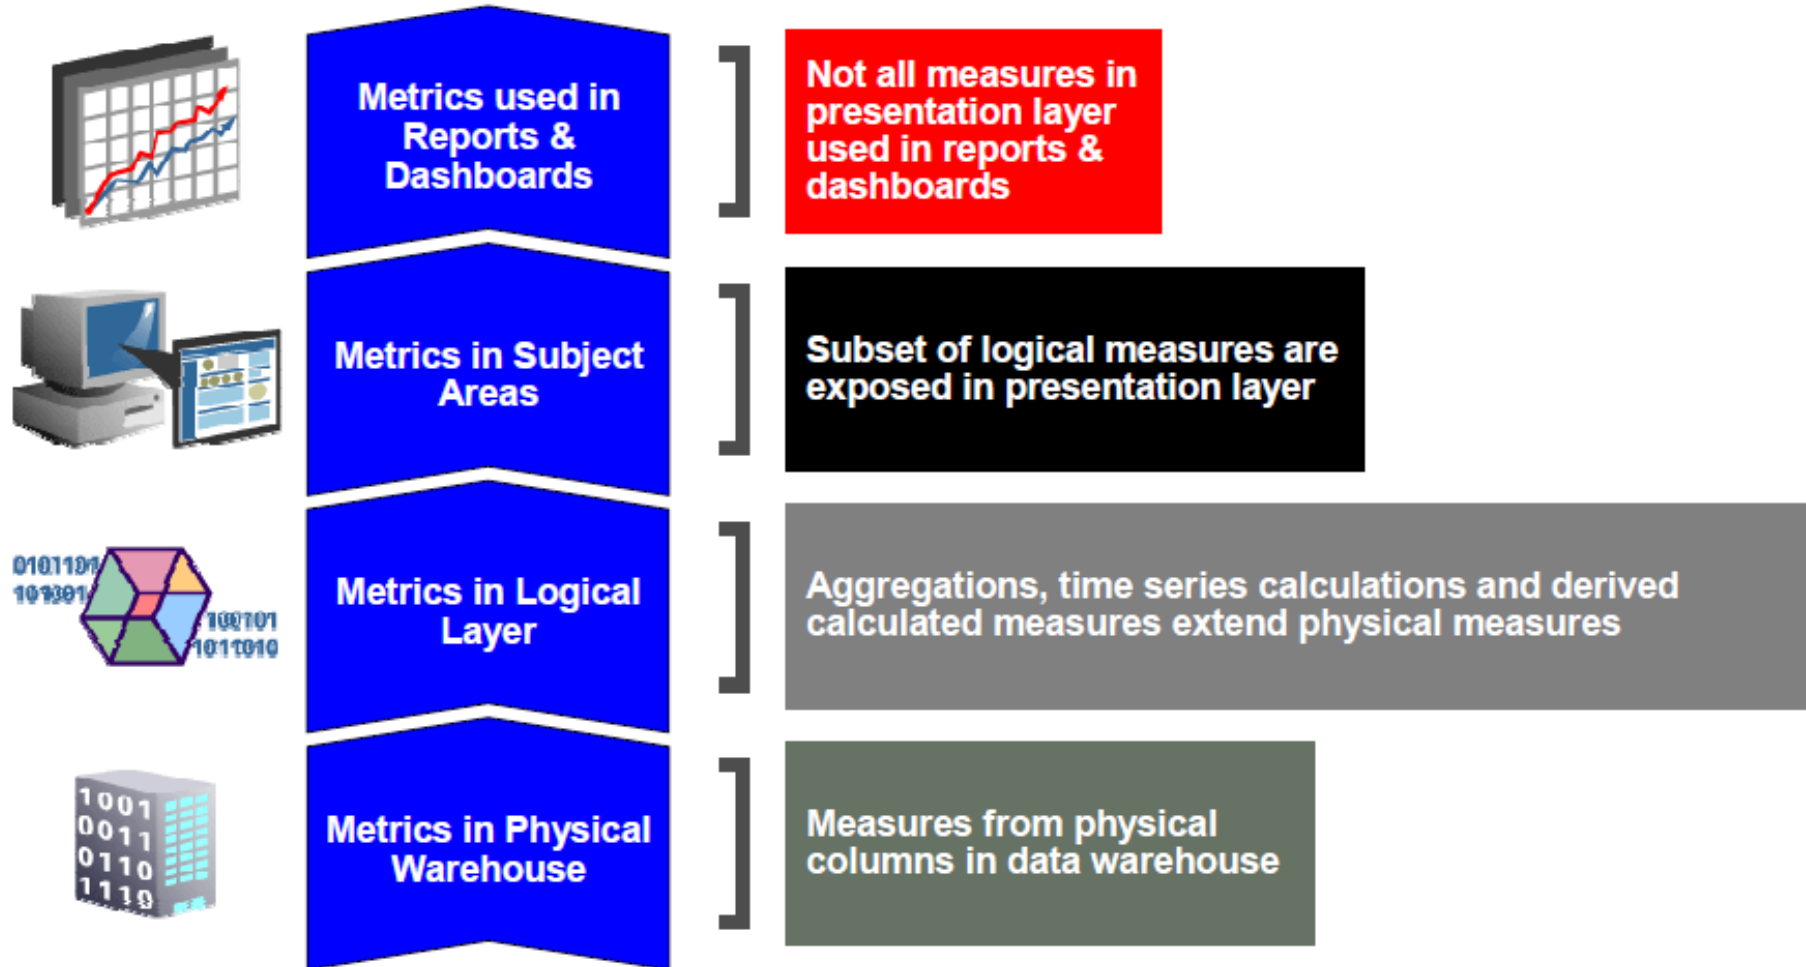

- Source – eBS/PSFT/Siebel/JD Edwards/Custom (Raw Data)
- ETL – Extraction Transform and Load (Informatica – PowerCenter or ODI)
- OBAW - Business Analytics Warehouse
- OBIEE Metadata
- OBIEE Content – Reports and Dashboards

# OBIEE – From Surface to Plumbing

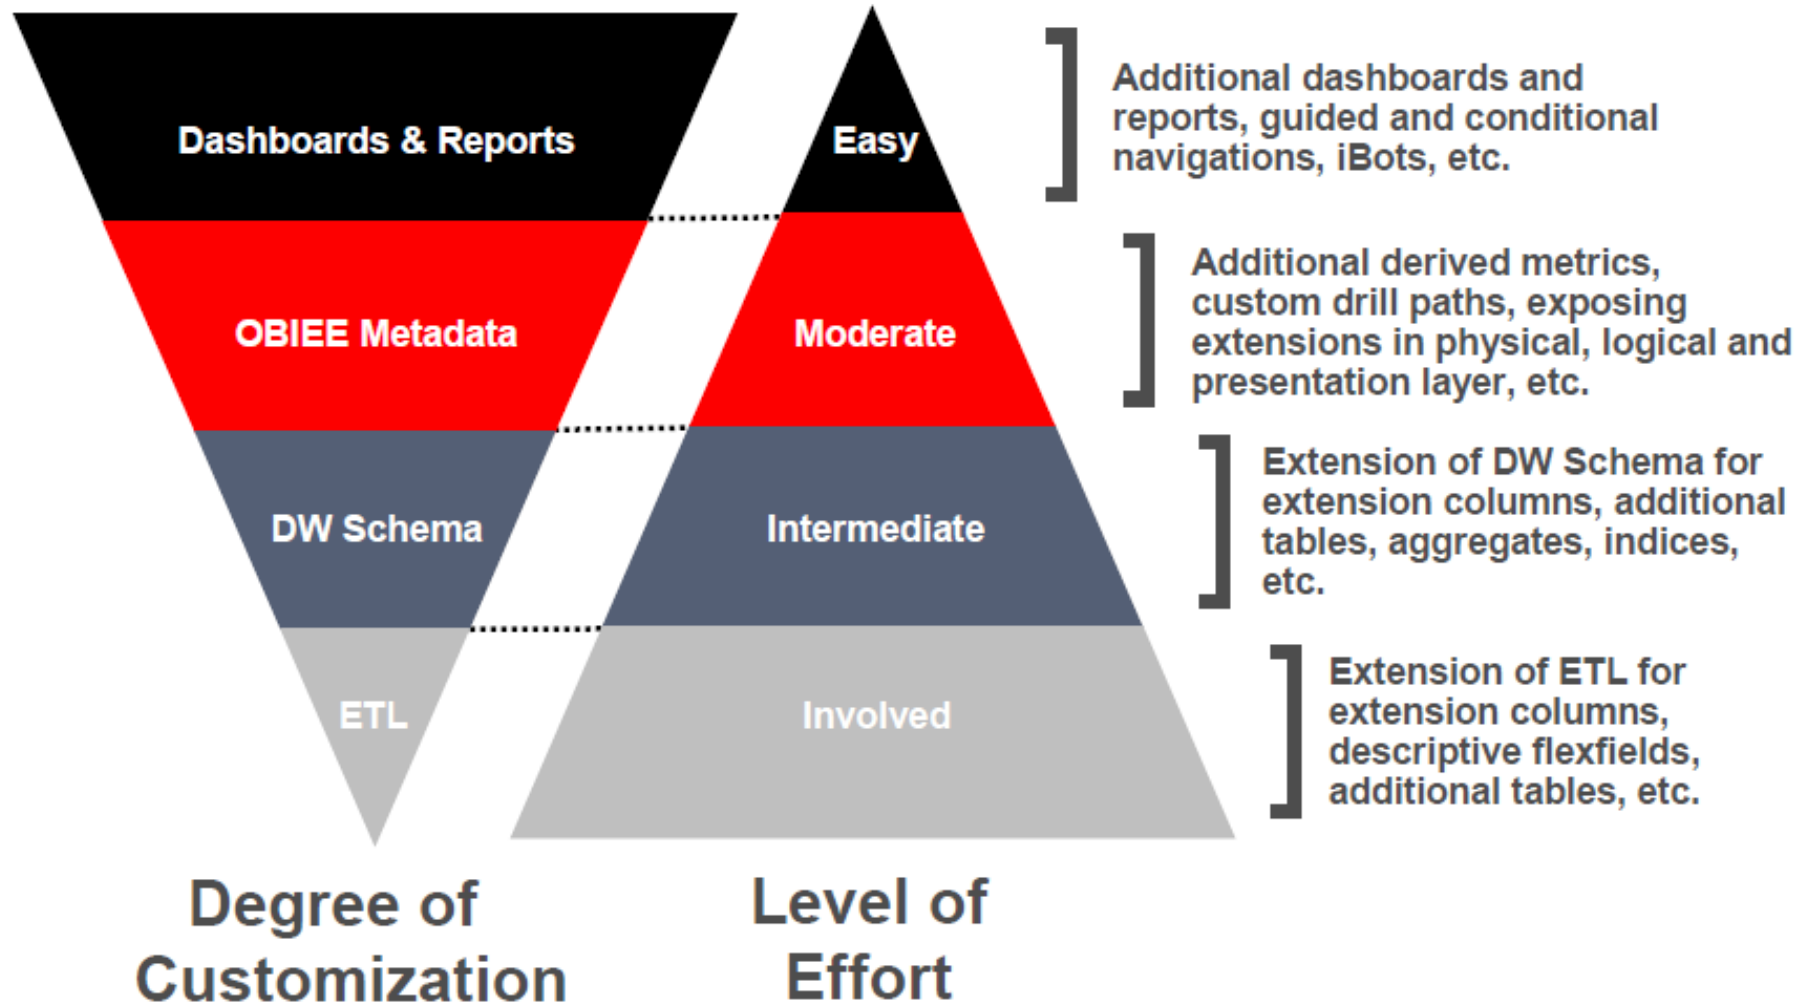

# Value Added to the Layered Architecture

# Effort v/s Customization Balance

### ■ Company A (Non Profit)

- ❑ ERP is Siebel and EBS
- ❑ IBM H/W and AIX shop
- ❑ ODS / Crystal Reports
- ❑ Cognos for Planning and Budgeting

### ■ Company B (Energy Sector)

- ❑ One Division SAP, rest legacy, EBS R12 to consolidate into one ERP
- ❑ SAP tools for Reporting, Crystal
- ❑ New HFM and Planning (System 11)

# JD Edwards Tables

- The JD Edwards table names are quite cryptic
- This shows that for building custom OBIEE solutions, deep ERP knowledge is required
- Need for data modeler, ETL/OBIEE architect and developers

JDE Module	Table	Description
Validity of all tables from 2001		
G/L	F0901	Account Master
	F0902	Account Balances
	F0911	Account Ledger
A/P	F0401	Supplier Master
	F0411	Accounts Payable Ledger
	F0413	Accounts Payable - Matching Document
	F0414	Accounts Payable - Matching Document Detail
	F0457	A/P Payment Type
	F04571	A/P Payment Processing - Header
	F04572	A/P Payment Processing - Summary
A/R	F03012	Customer Master
	F0311	Accounts Receivable Ledger
	F03B11	Customer Ledger
	F03B13	Receipts Header
	F03B14	Receipts Detail
Fixed Assets	F1200	Fixed Asset Constants
	F1201	Asset Master File
	F1202	Asset Account Balance File
	F1204	Location Tracking Table
	F1205	Equipment Messages
	F1206	Equipment License Master
	F1207	Maintenance Schedule File
	F1208	Units of Production Schedule Master File
Inventory	F4100	Location Master
	F4101	Item Master
	F41011	Bulk Item Master
	F4102	Item Branch File
	F41021	Item Location File
	F4105	Item Cost File
	F4106	Item Base Price File
	F4111	Item Ledger File
	F4140	Cycle Count Header File
	F4141	Cycle Count Transaction File

---

## General Challenges with BI Projects

- Users often want one place / tool for Operational and Analytical reporting
    - Degree of details in warehouse
    - Right time data – need for intra-day ETL
    - Highly Formatted reports
  - Security model across BI and Source Systems.
-

---

## Managing the OBIEE Project

- Quick Dev / Test environment install for **OBIEE Socialization**
  - Show customer's data and invite users to start playing with it to **Create a Dashboard Envy**
  - Fit Gap Analysis
  - Iterate and fine tune the system
-

## Summary / Questions

- Recap OBIEE
- Recap BI Applications
- Technical Details
- Questions
- Contact Information:

# BI Center of Excellence

Definition and Purpose of Center of Excellence

Impact of CoE

Relevance of CoE for company

Best practices for CoE

Next Steps...

*The business intelligence competency center is essential to an business intelligence strategy. It can effectively address critical challenges such as education, staffing, planning and organizational support & execution.*

**BI Competency Center Is Core to BI Success.** Gartner

# Why BI-CoE

## Why CoE?

We need better information faster

✓✓

Systems are complex

✓✓

Many products, many applications

✓✓

***Limited resources***

✓✓

Global teams, often times with outsourcing

✓

Shrinking budgets

✓

**Relevance  
At company**
